Dispute Desk · operations console

# The four screens, as built

Screenshots of the live console in every important state, taken on synthetic data (14 made-up shipments, no real seller). Use them with **CLAUDE_DESIGN_BRIEF.md** - the brief says what each screen must do; this file shows what it does today.

- **Seller** raises a dispute on a shipment's weight charge.
- **The agent** gathers evidence, has code recalculate the charge, and proposes what to do.
- **A reviewer** approves every credit and every email before it happens.
- **Finance** sees every credit traced to its case, its approver and its proof.

Captured 8 Nov 2026 with Microsoft Edge at 1440×900 (desktop) and 375×812 (phone). Long pages are cut into parts so they stay readable.

# What is in this file

| # | Screen | State | View |
|---|---|---|---|
| 1 | Raise a ticket | Seller view, nothing chosen yet | Desktop 1440 px |
| 2 | Raise a ticket | A shipment chosen | Desktop 1440 px |
| 3 | Raise a ticket | A shipment that was not delivered | Desktop 1440 px |
| 4 | Raise a ticket | The shipments table scrolls inside its frame | Phone 375 px |
| 5 | Agent steps | Resolved and credited | Desktop 1440 px |
| 6 | Agent steps | Waiting for a reviewer to approve a credit | Desktop 1440 px |
| 7 | Agent steps | Handed to a person | Desktop 1440 px |
| 8 | Agent steps | Not eligible after the evidence (T05) | Desktop 1440 px |
| 9 | Agent steps | Waiting for the seller | Desktop 1440 px |
| 10 | Agent steps | Resolved, charge upheld | Desktop 1440 px |
| 11 | Agent steps | With a person after the seller's text tried to give the agent instructions | Desktop 1440 px |
| 12 | Agent steps | The stepper becomes a vertical list | Phone 375 px |
| 13 | Agent steps | A case with a person | Phone 375 px |
| 14 | Review | Review sign-in, run locally | Desktop 1440 px |
| 15 | Review | Awaiting approval | Desktop 1440 px |
| 16 | Review | With a person | Desktop 1440 px |
| 17 | Review | The two columns of a decision card stack | Phone 375 px |
| 18 | Ledger | Finance | Desktop 1440 px |
| 19 | Ledger | All entries filtered to credits | Desktop 1440 px |
| 20 | Ledger | The totals stack with a rule between them | Phone 375 px |

Screen 1 of 4

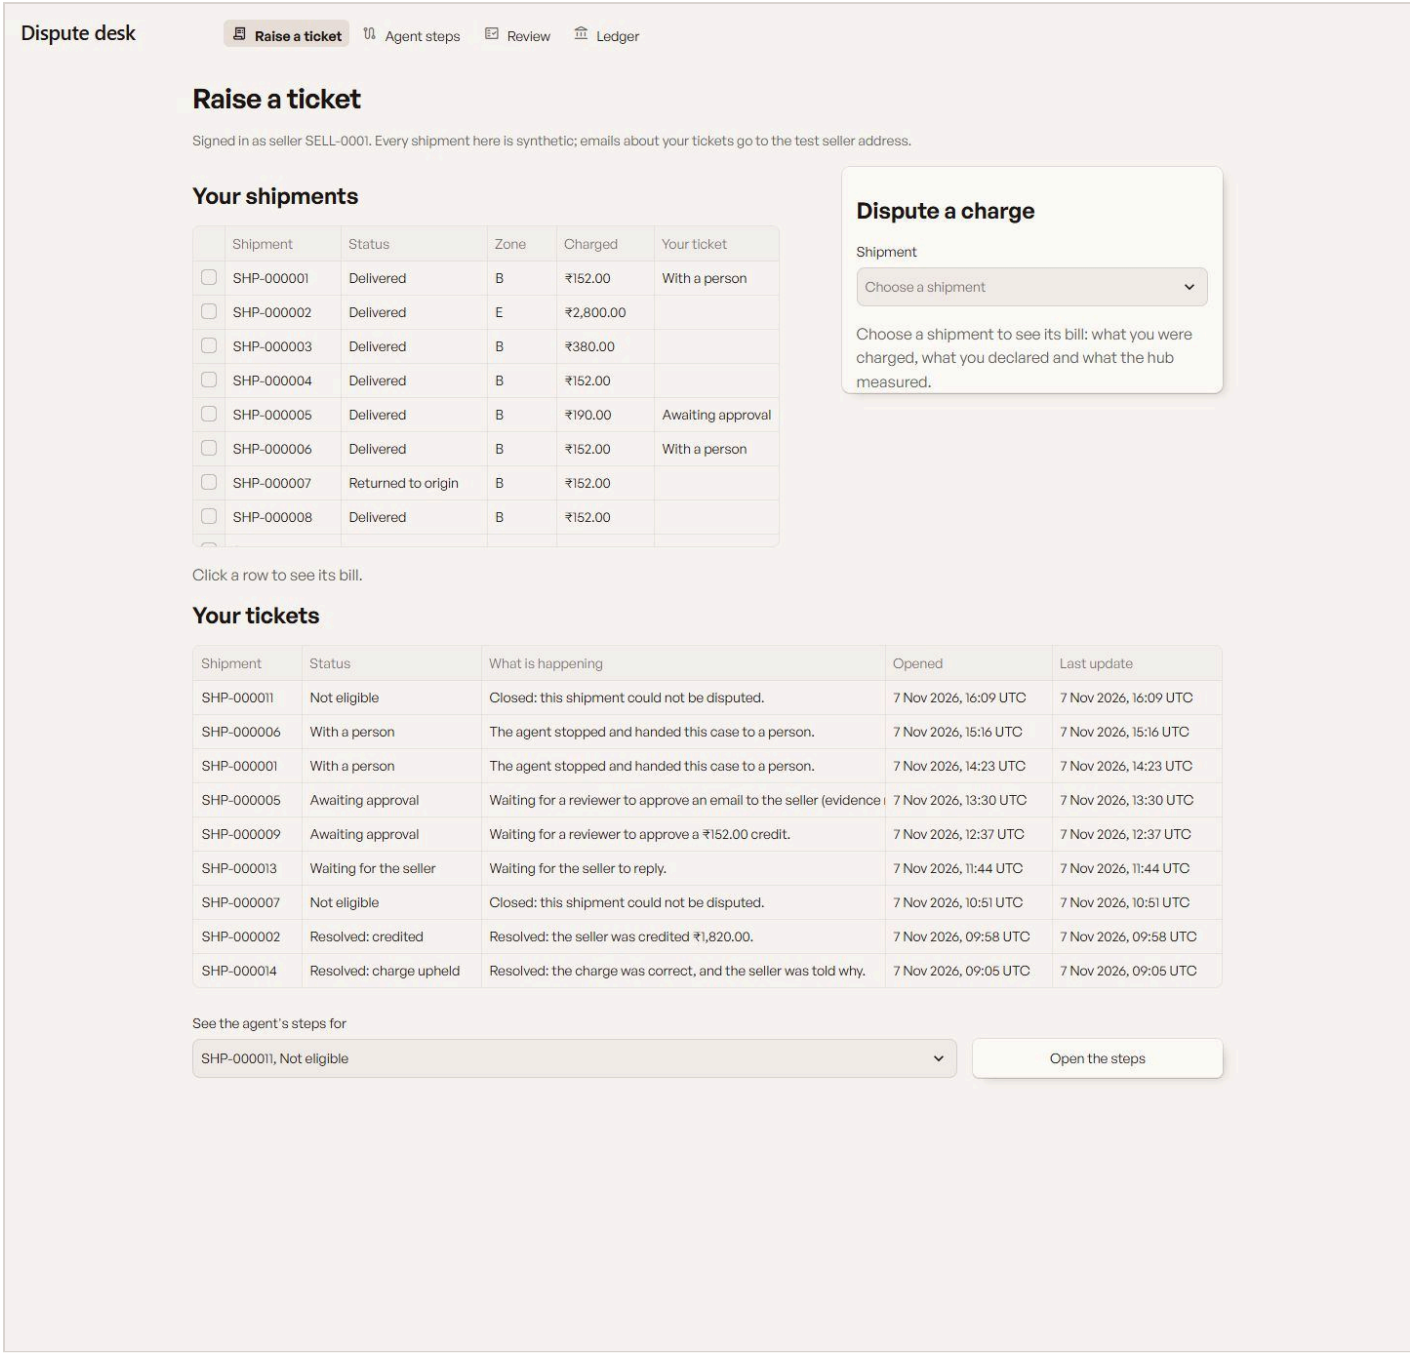

# Raise a ticket

Screen 1 - the seller. Choose a shipment, see its bill, raise a dispute, follow your tickets.

3 desktop state(s), 1 phone view(s)

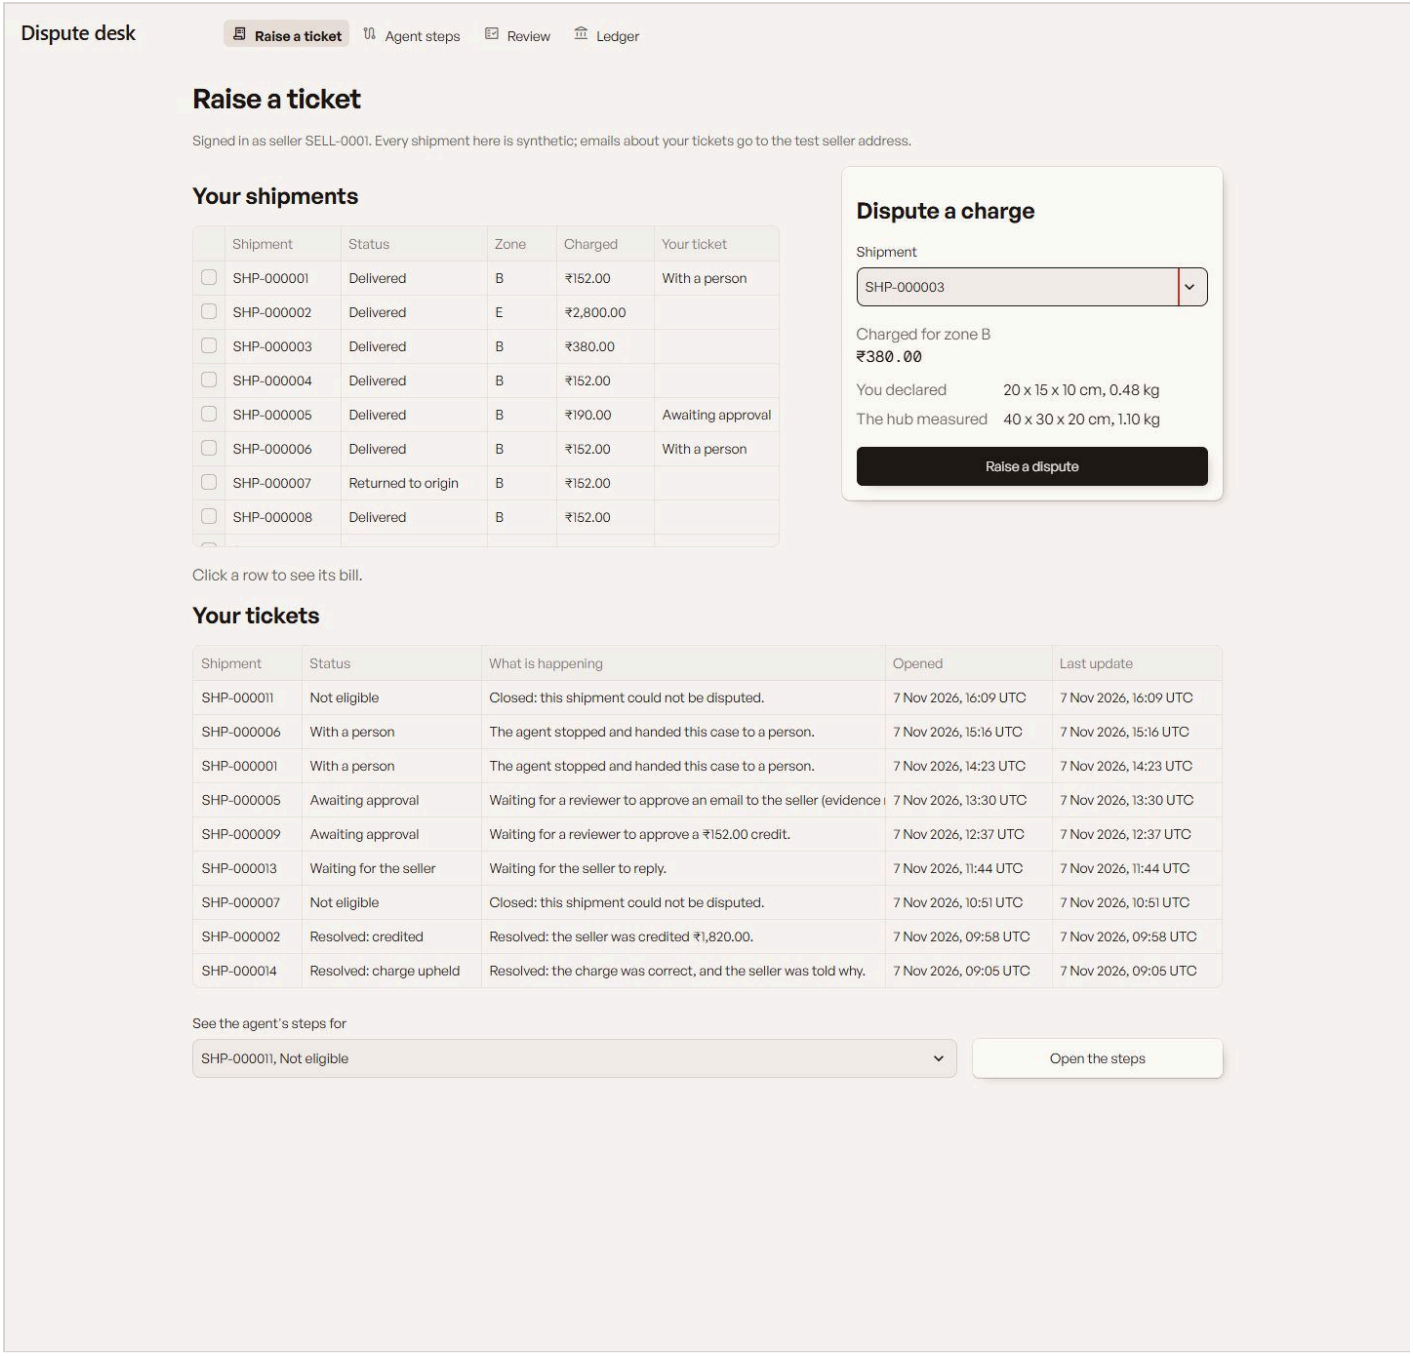

1. Raise a ticket · desktop 1440 px

Seller view, nothing chosen yet. Shipments on the left with any open ticket; the bill card waits for a choice; the seller's tickets each say in a sentence what is happening.

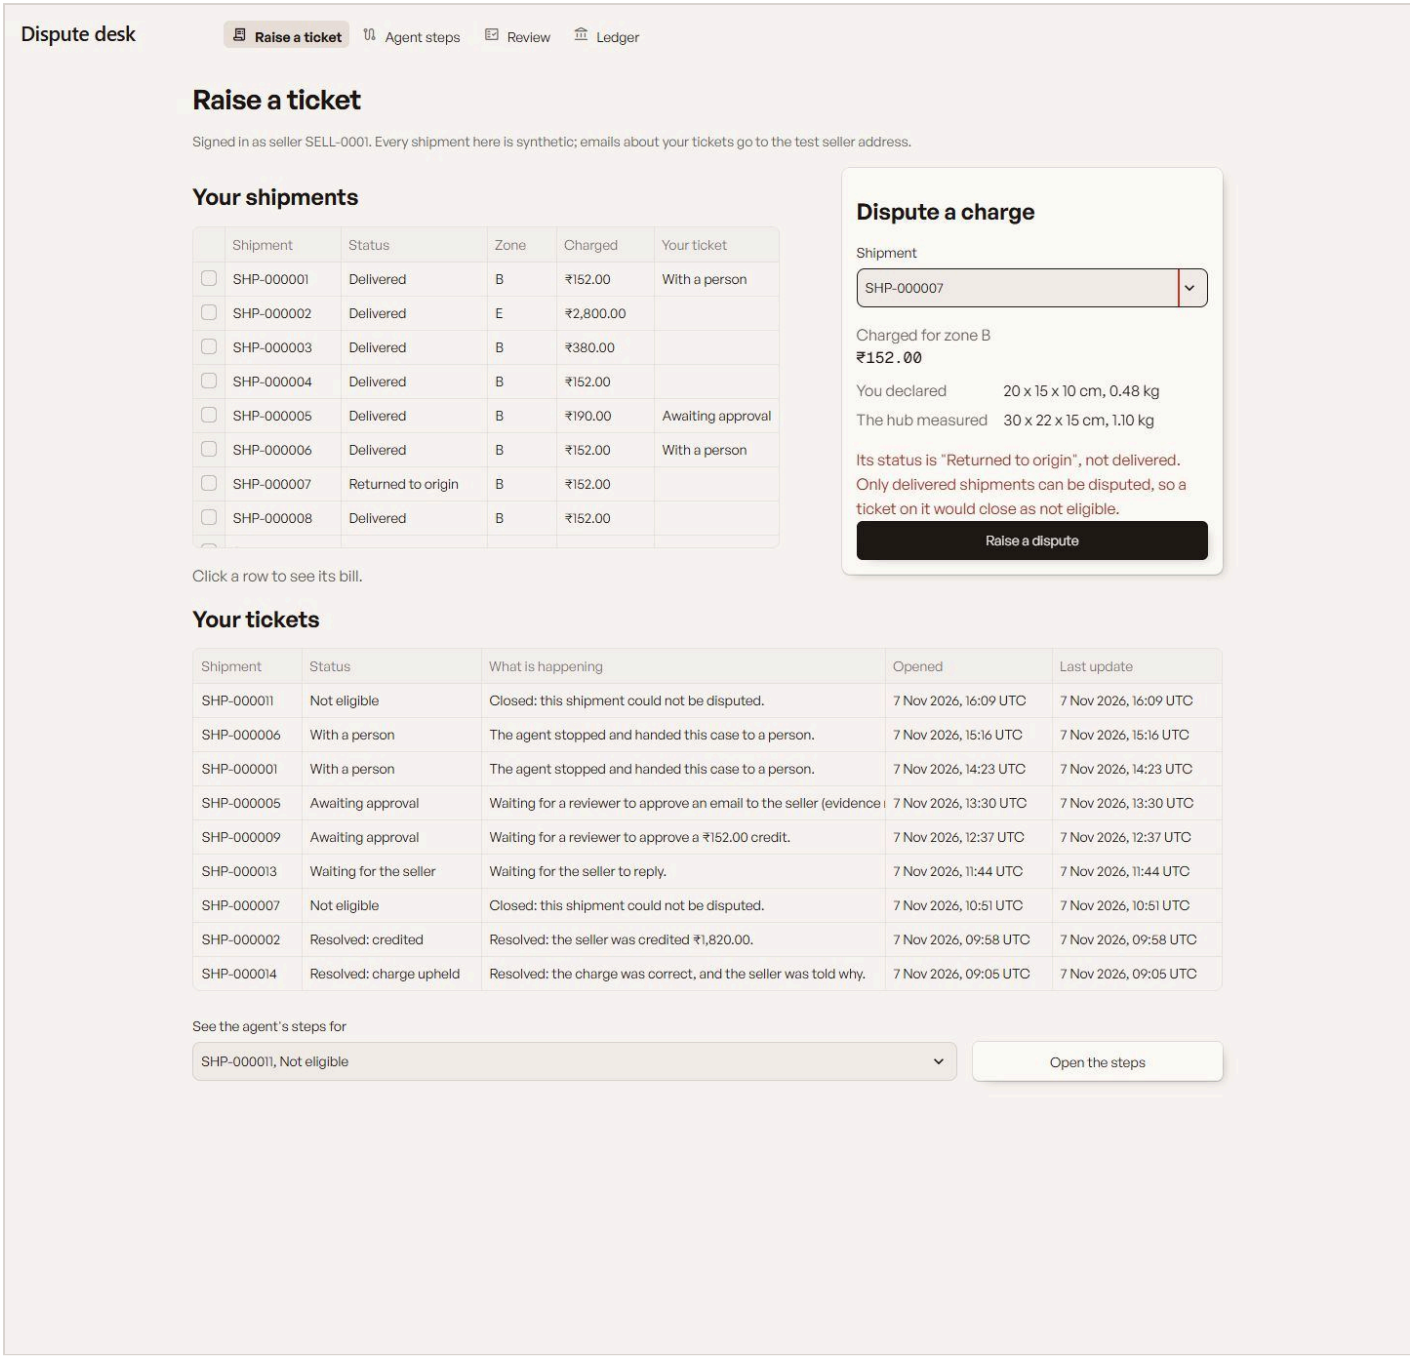

2. Raise a ticket · desktop 1440 px

A shipment chosen: the bill shows what was charged, what the seller declared beside what the hub measured, and the one action.

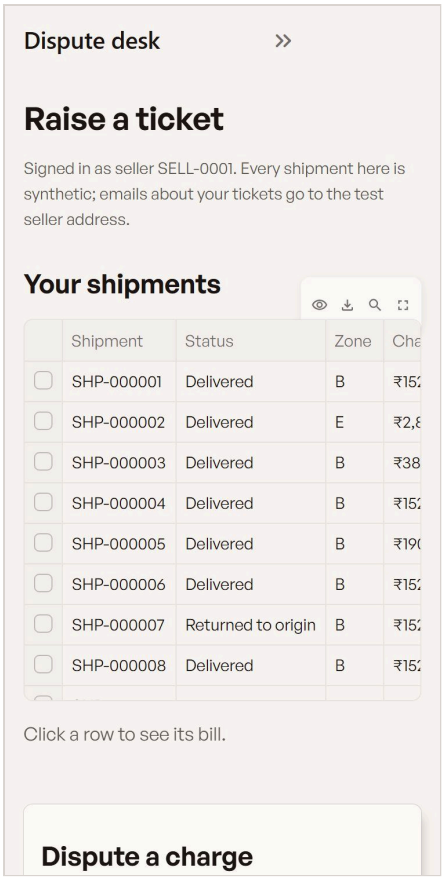

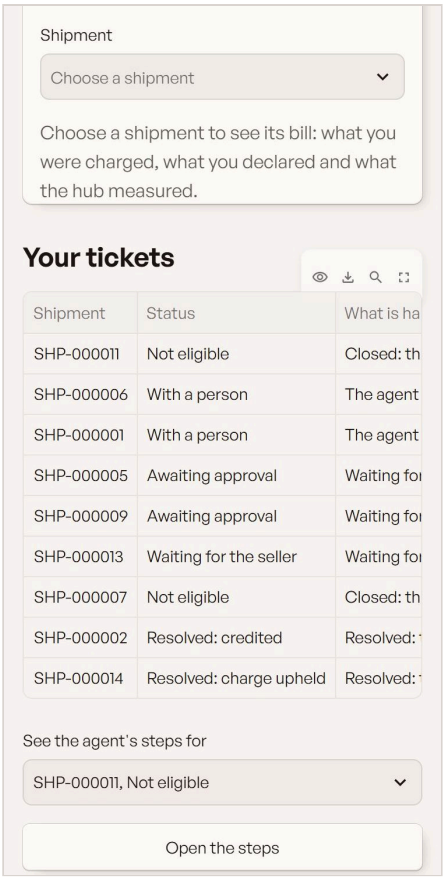

3. Raise a ticket · desktop 1440 px

A shipment that was not delivered: the bill warns before a ticket is raised that it would close as not eligible.

Phone: the shipments table scrolls inside its frame; the bill card follows below. Read the columns left to right, top to bottom.

Screen 2 of 4

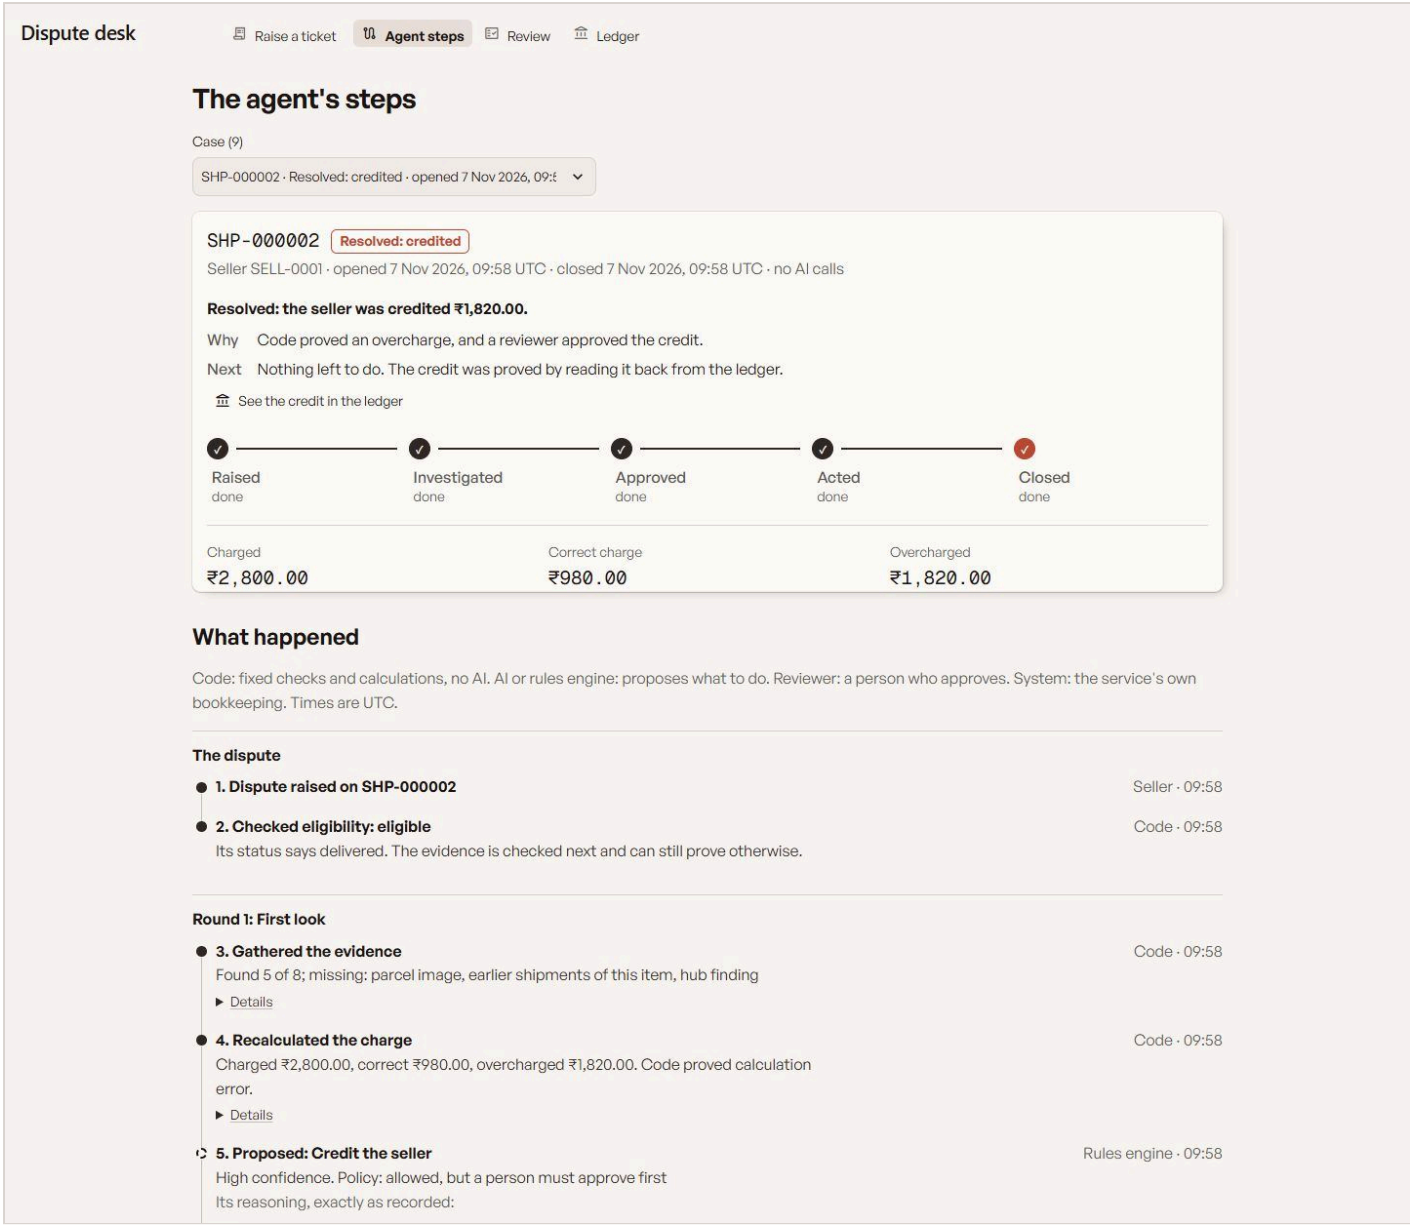

# Agent steps

Screen 2 - the observer. Where a case stands, why, what happens next, and every step the agent took.

7 desktop state(s), 2 phone view(s)

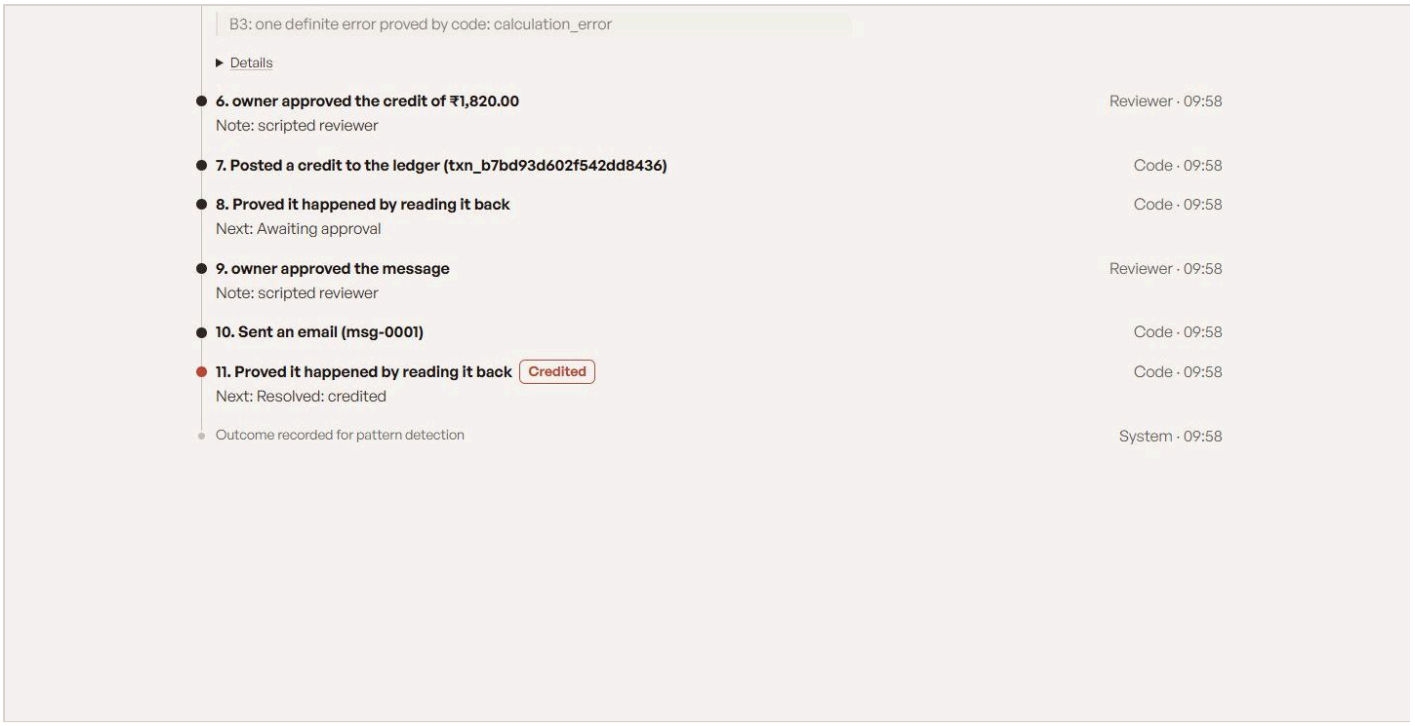

5. Agent steps · desktop 1440 px (part 1 of 2)

Resolved and credited: headline, Why and Next, every phase done (the last one in the settled colour), code's figures, and the timeline with the reviewer's approval and the read-back.

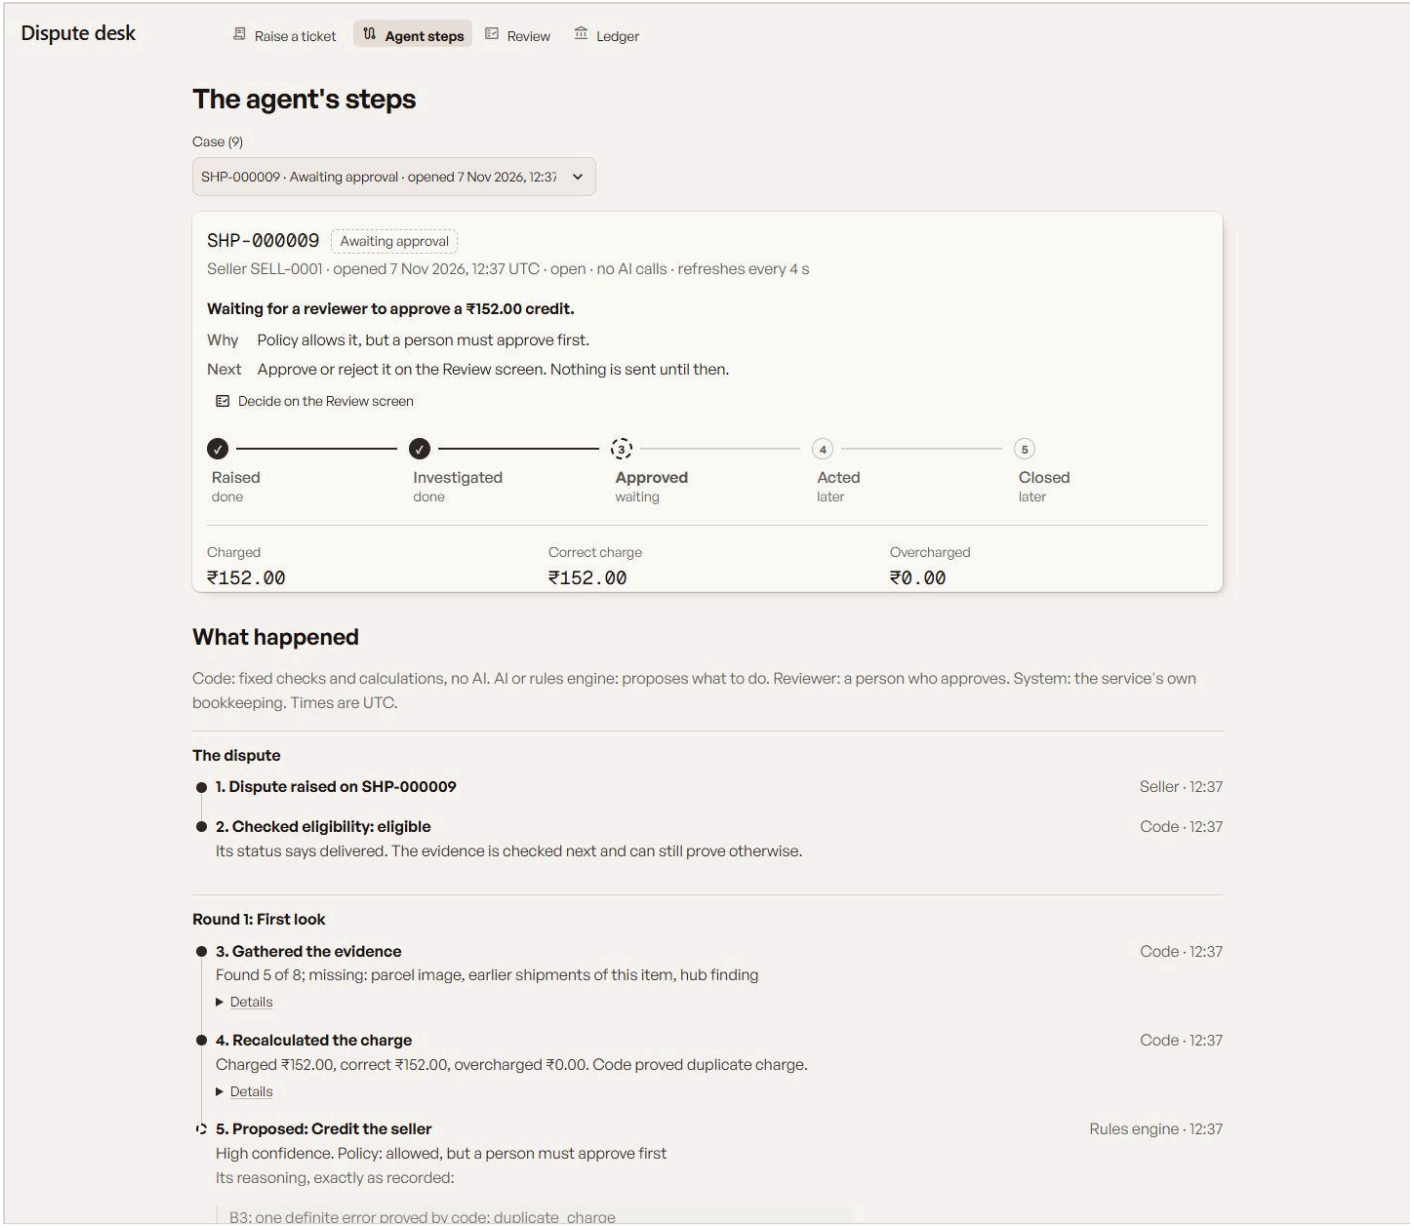

5. Agent steps · desktop 1440 px (part 2 of 2)

Resolved and credited: headline, Why and Next, every phase done (the last one in the settled colour), code's figures, and the timeline with the reviewer's approval and the read-back.

6. Agent steps · desktop 1440 px (part 1 of 2)

Waiting for a reviewer to approve a credit: the Approved phase is waiting, a link leads to Review, and the rules engine's proposal shows its reasoning openly.

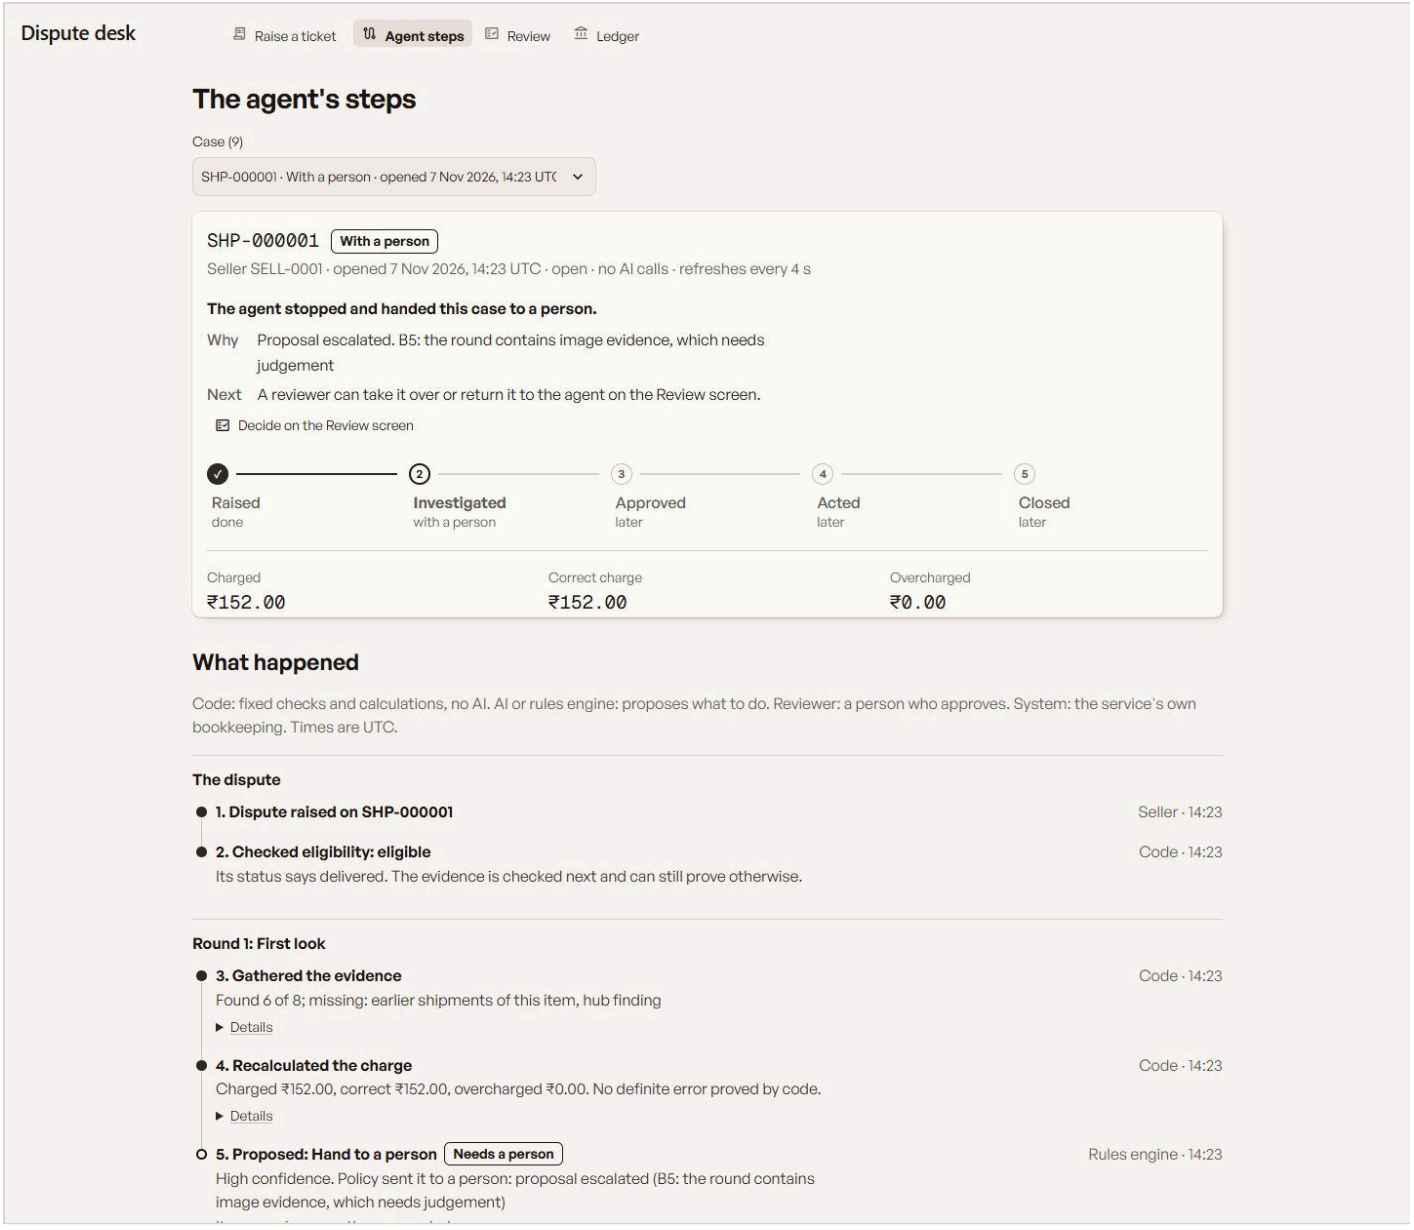

6. Agent steps · desktop 1440 px (part 2 of 2)

Waiting for a reviewer to approve a credit: the Approved phase is waiting, a link leads to Review, and the rules engine's proposal shows its reasoning openly.

7. Agent steps · desktop 1440 px (part 1 of 2)

Handed to a person: why (image evidence needs judgement), what happens next, and the Investigated phase marked 'with a person'.

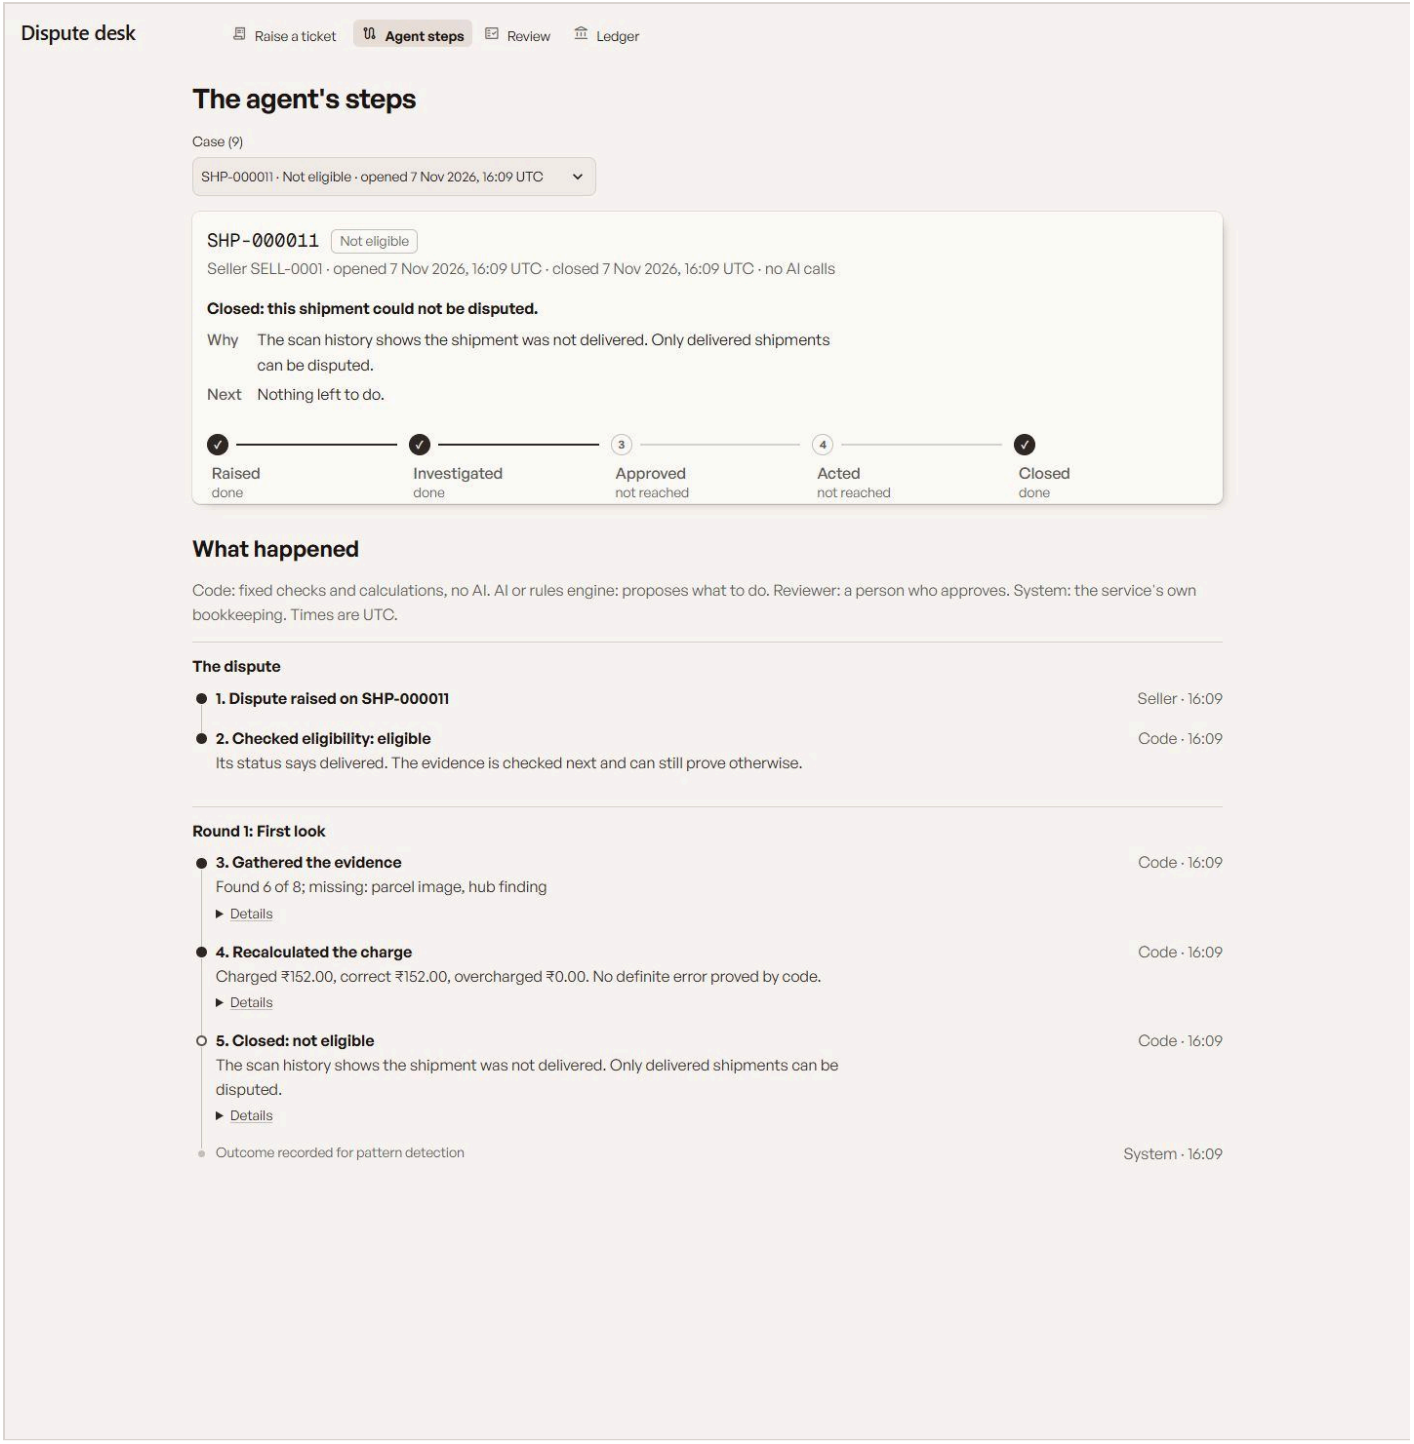

7. Agent steps · desktop 1440 px (part 2 of 2)

Handed to a person: why (image evidence needs judgement), what happens next, and the Investigated phase marked 'with a person'.

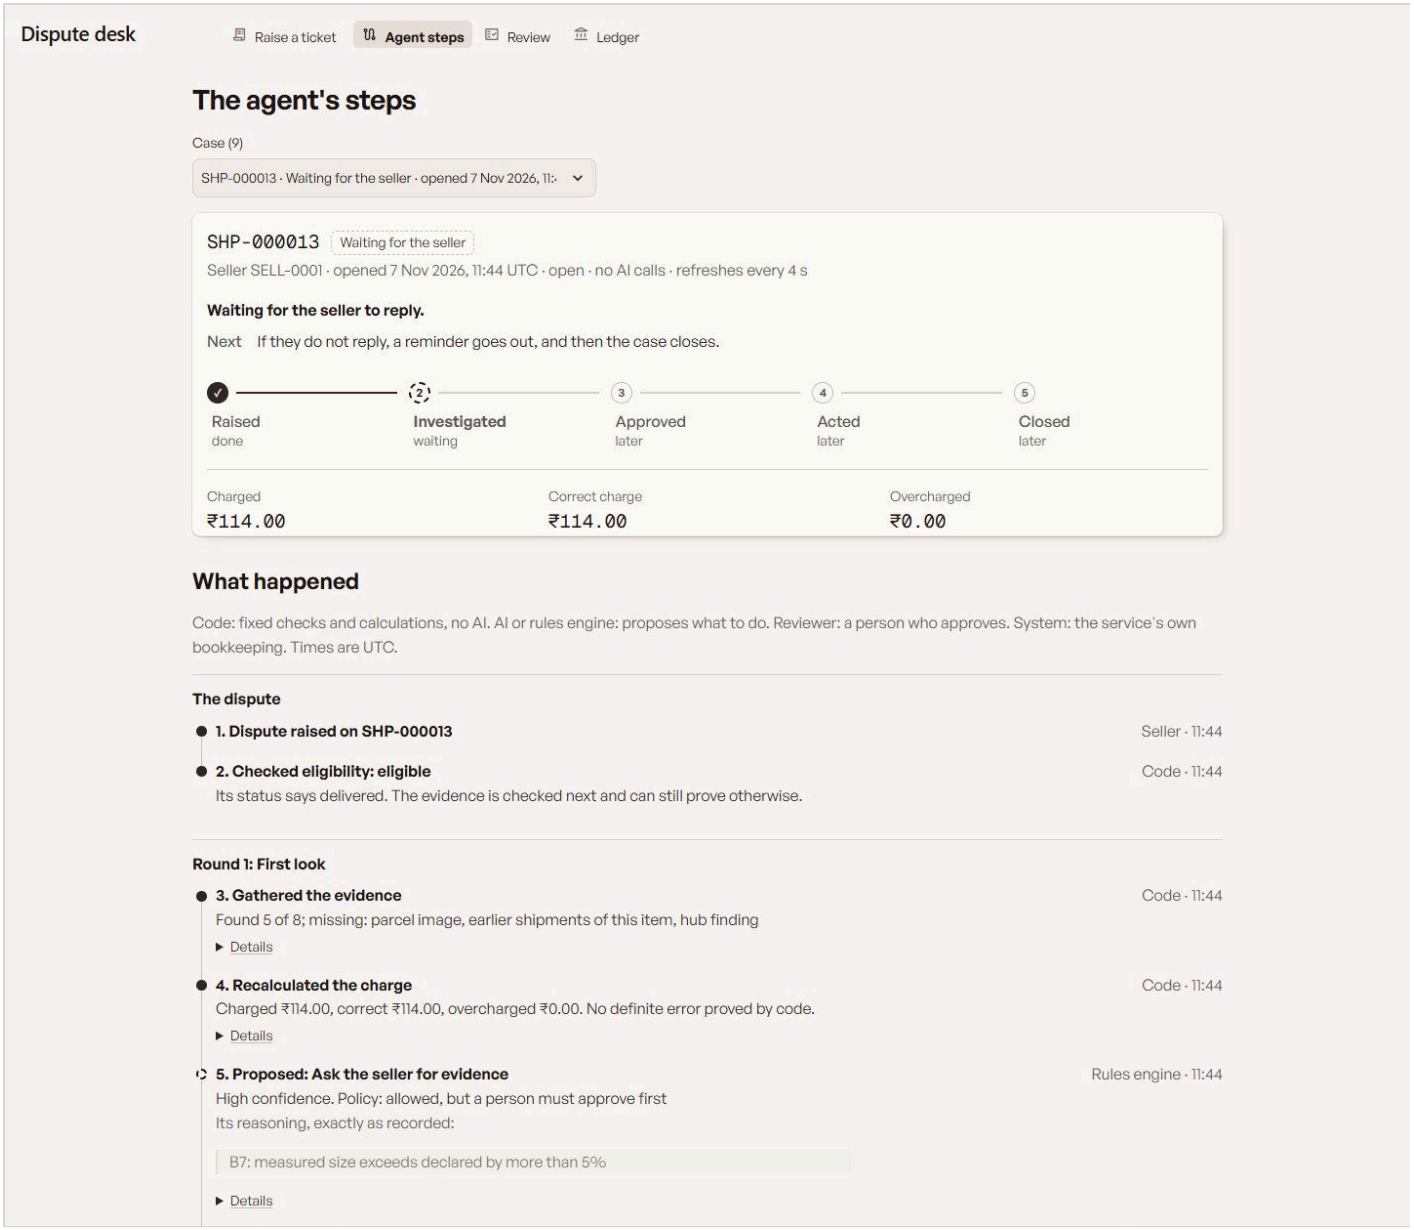

8. Agent steps · desktop 1440 px

Not eligible after the evidence (T05): the scan history proved it was never delivered. Approved and Acted are 'not reached'; no figures are shown; the closing step says why.

9. Agent steps · desktop 1440 px (part 1 of 2)

Waiting for the seller: an email asked for evidence; the case waits, with a reminder and a closing deadline.

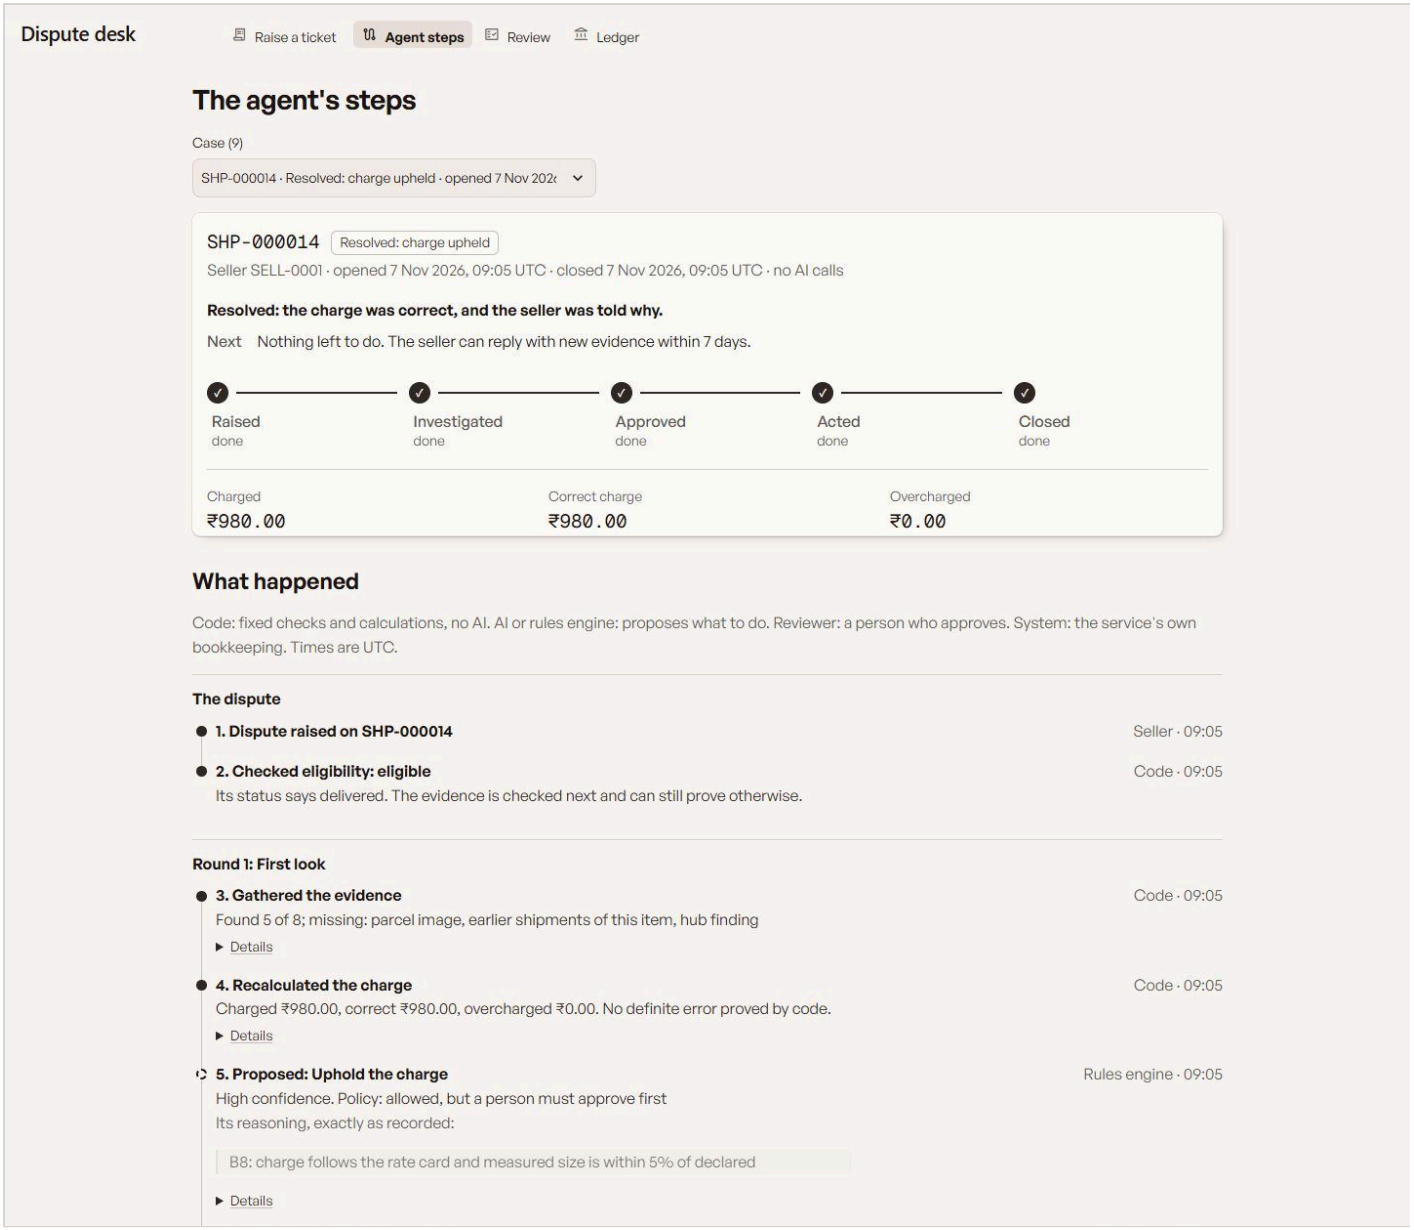

9. Agent steps · desktop 1440 px (part 2 of 2)

Waiting for the seller: an email asked for evidence; the case waits, with a reminder and a closing deadline.

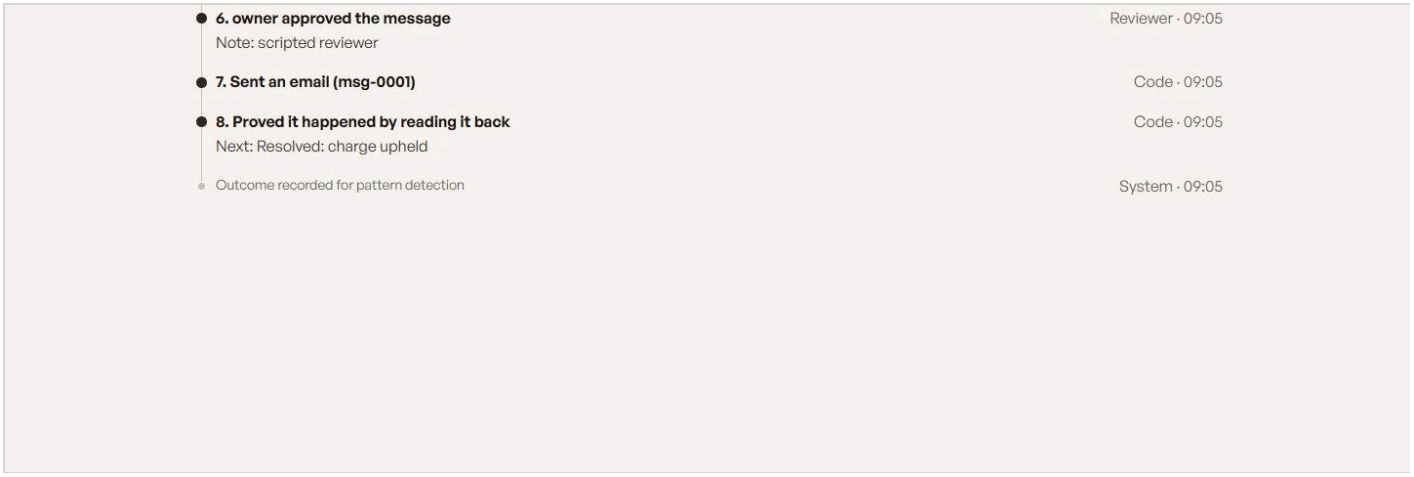

10. Agent steps · desktop 1440 px (part 1 of 2)

Resolved, charge upheld: code found no error and the seller was told why.

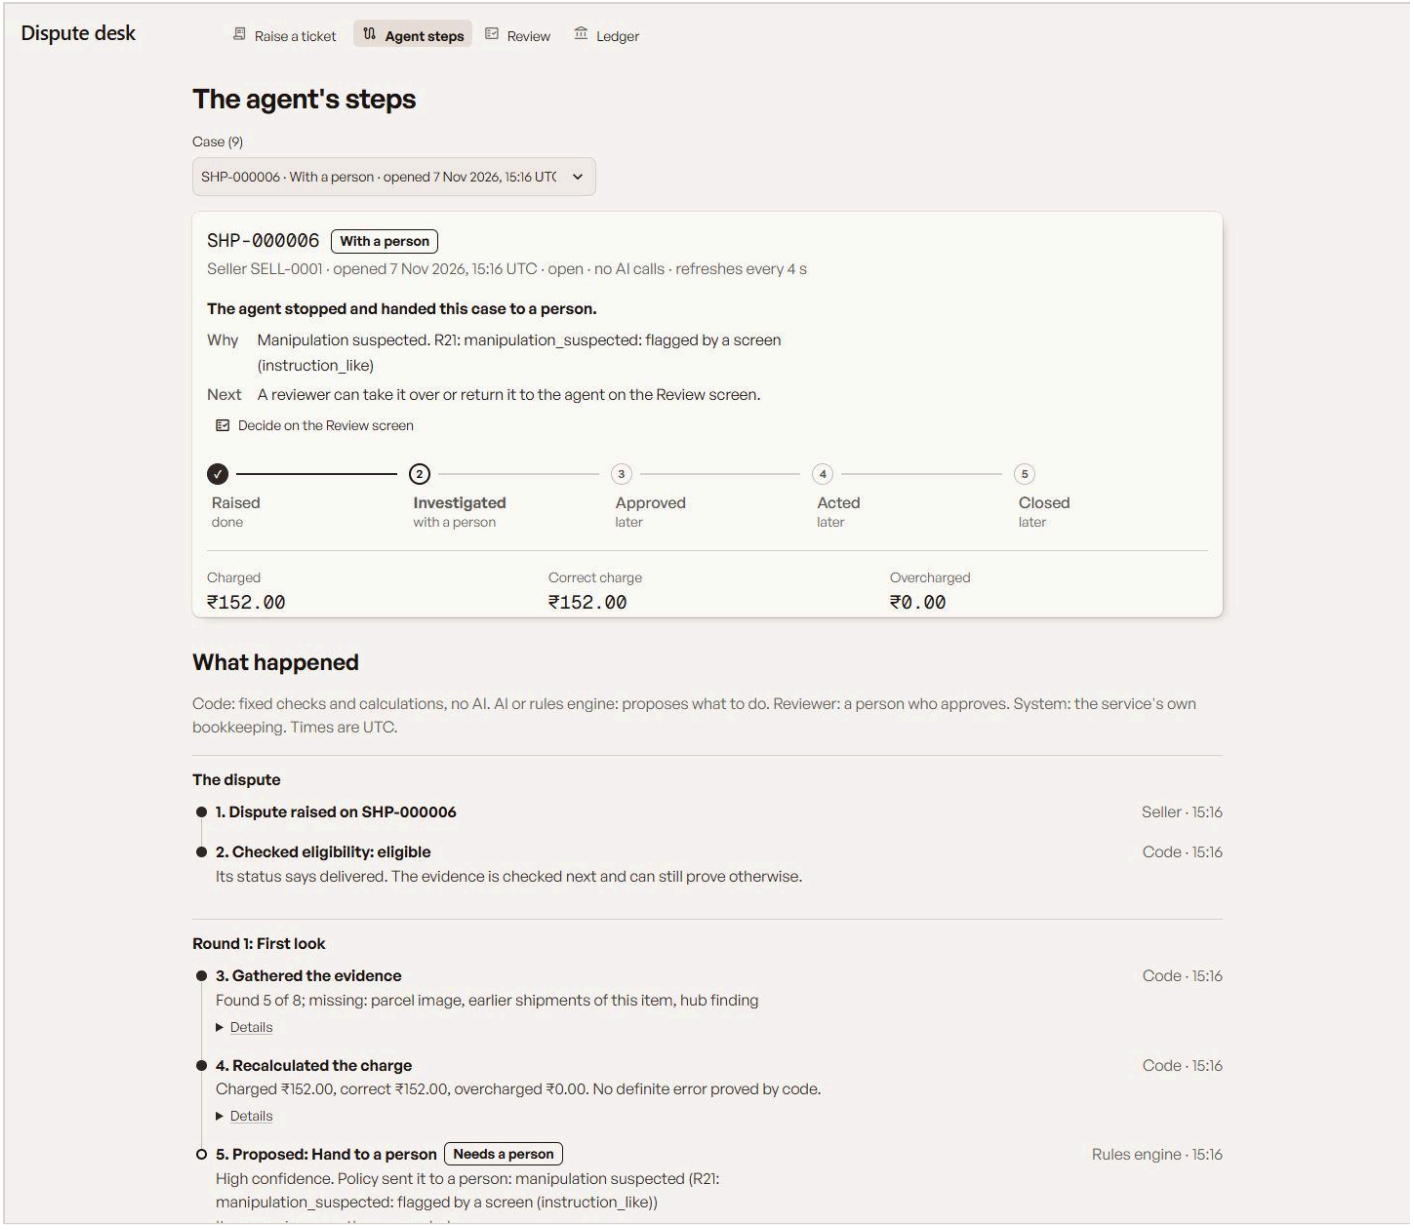

10. Agent steps · desktop 1440 px (part 2 of 2)

Resolved, charge upheld: code found no error and the seller was told why.

11. Agent steps · desktop 1440 px (part 1 of 2)

With a person after the seller's text tried to give the agent instructions: the text was treated as data and the case escalated.

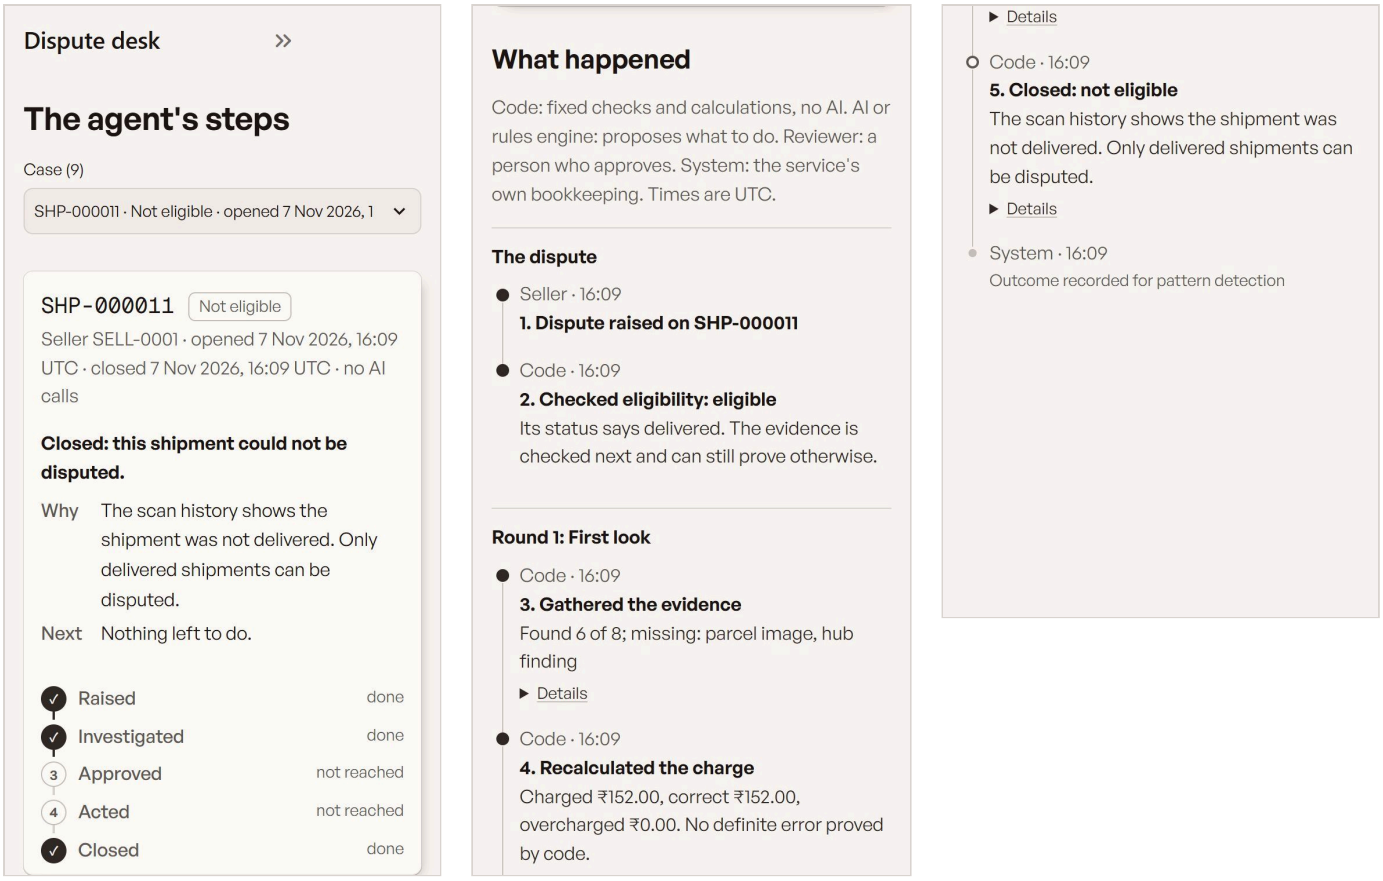

11. Agent steps · desktop 1440 px (part 2 of 2)

With a person after the seller's text tried to give the agent instructions: the text was treated as data and the case escalated.

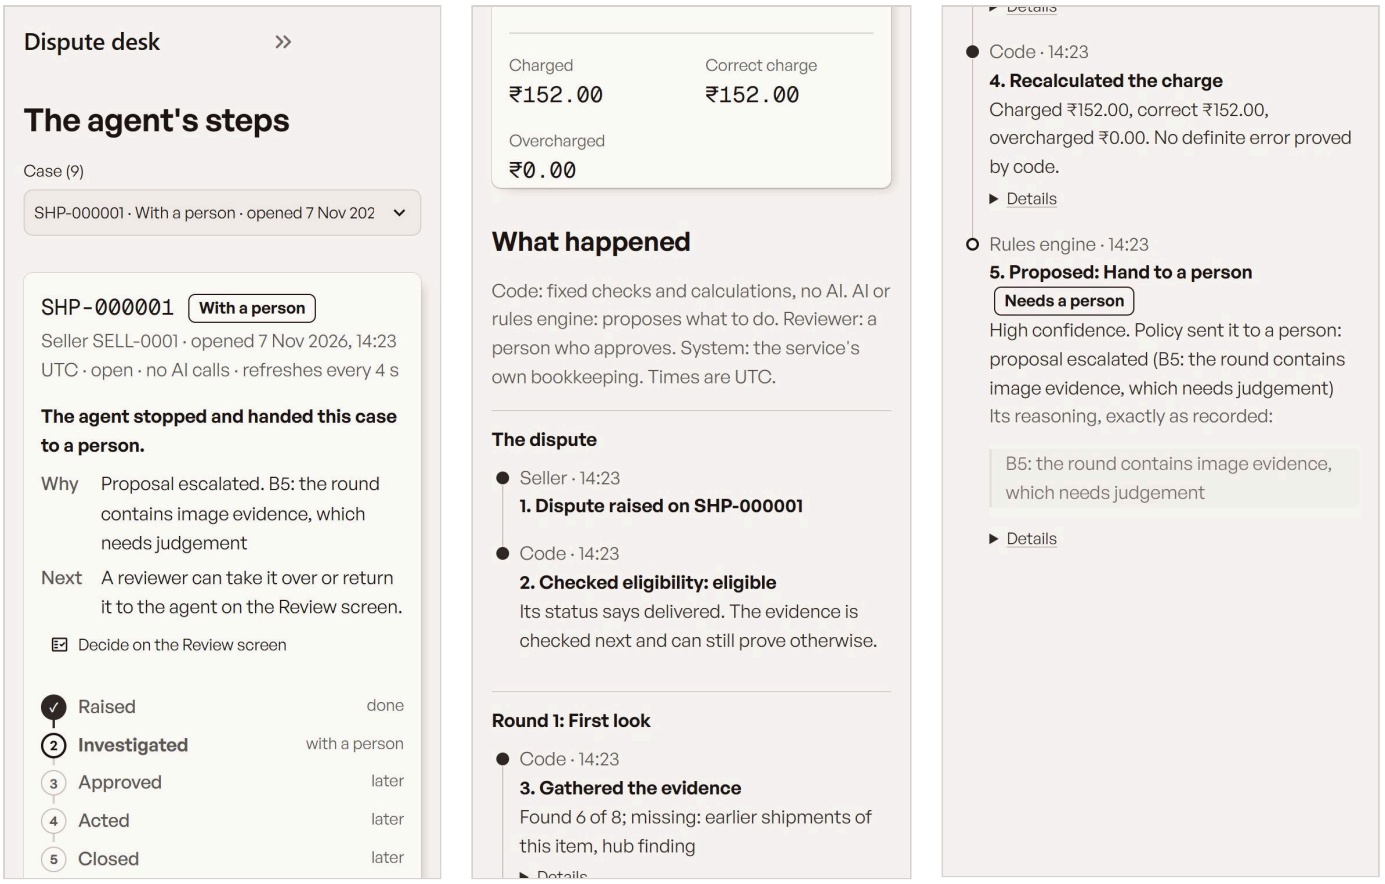

12. Agent steps · phone 375 px

Phone: the stepper becomes a vertical list; who and when sit above each step. Read the columns left to right, top to bottom.

13. Agent steps · phone 375 px

Phone: a case with a person. Read the columns left to right, top to bottom.

Screen 3 of 4

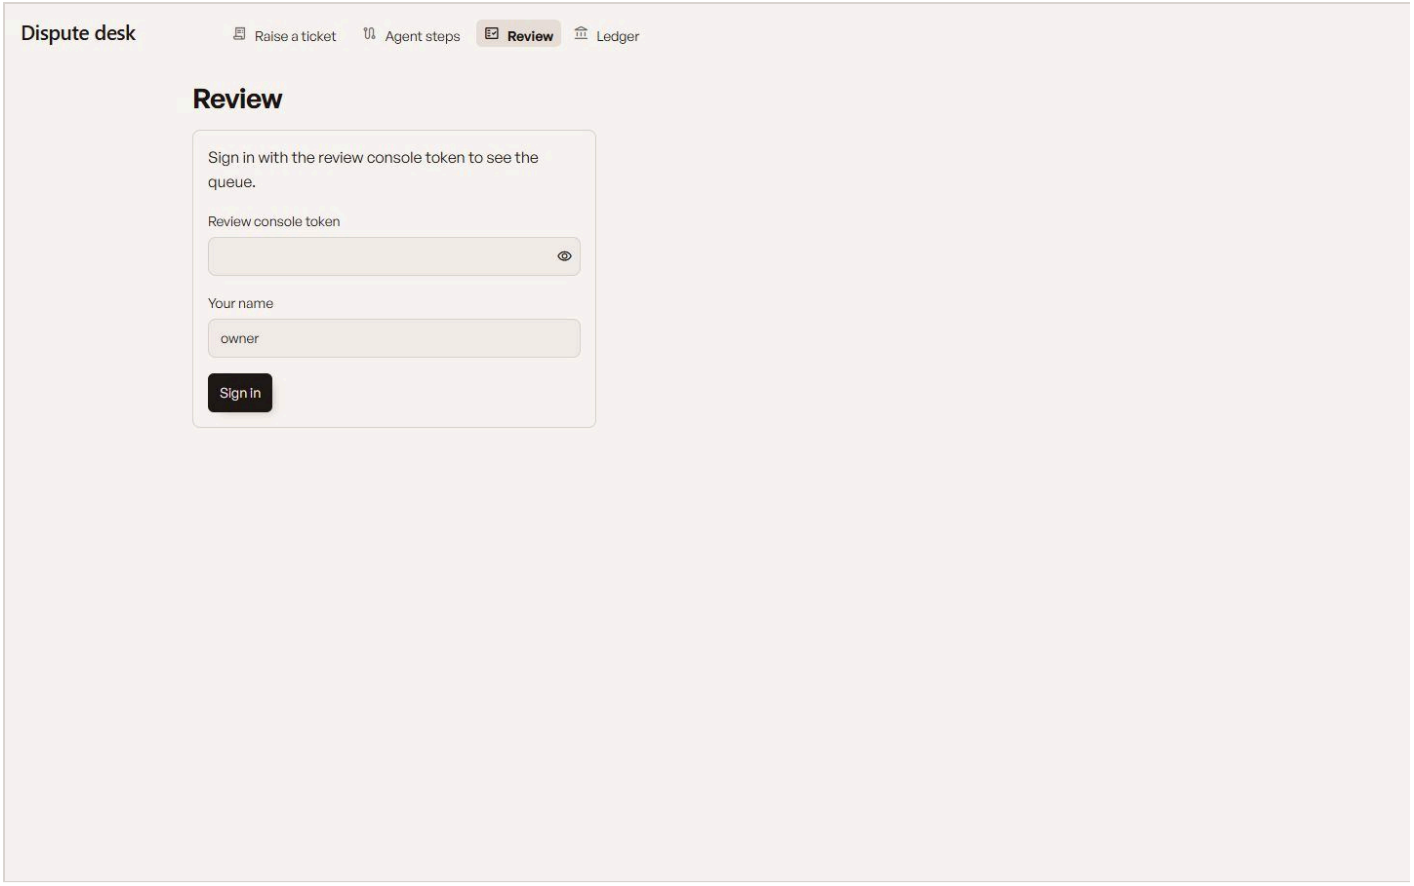

# Review

Screen 3 - the human in the loop. Approve or reject what the agent wants to do; act on cases handed to a person.

3 desktop state(s), 1 phone view(s)

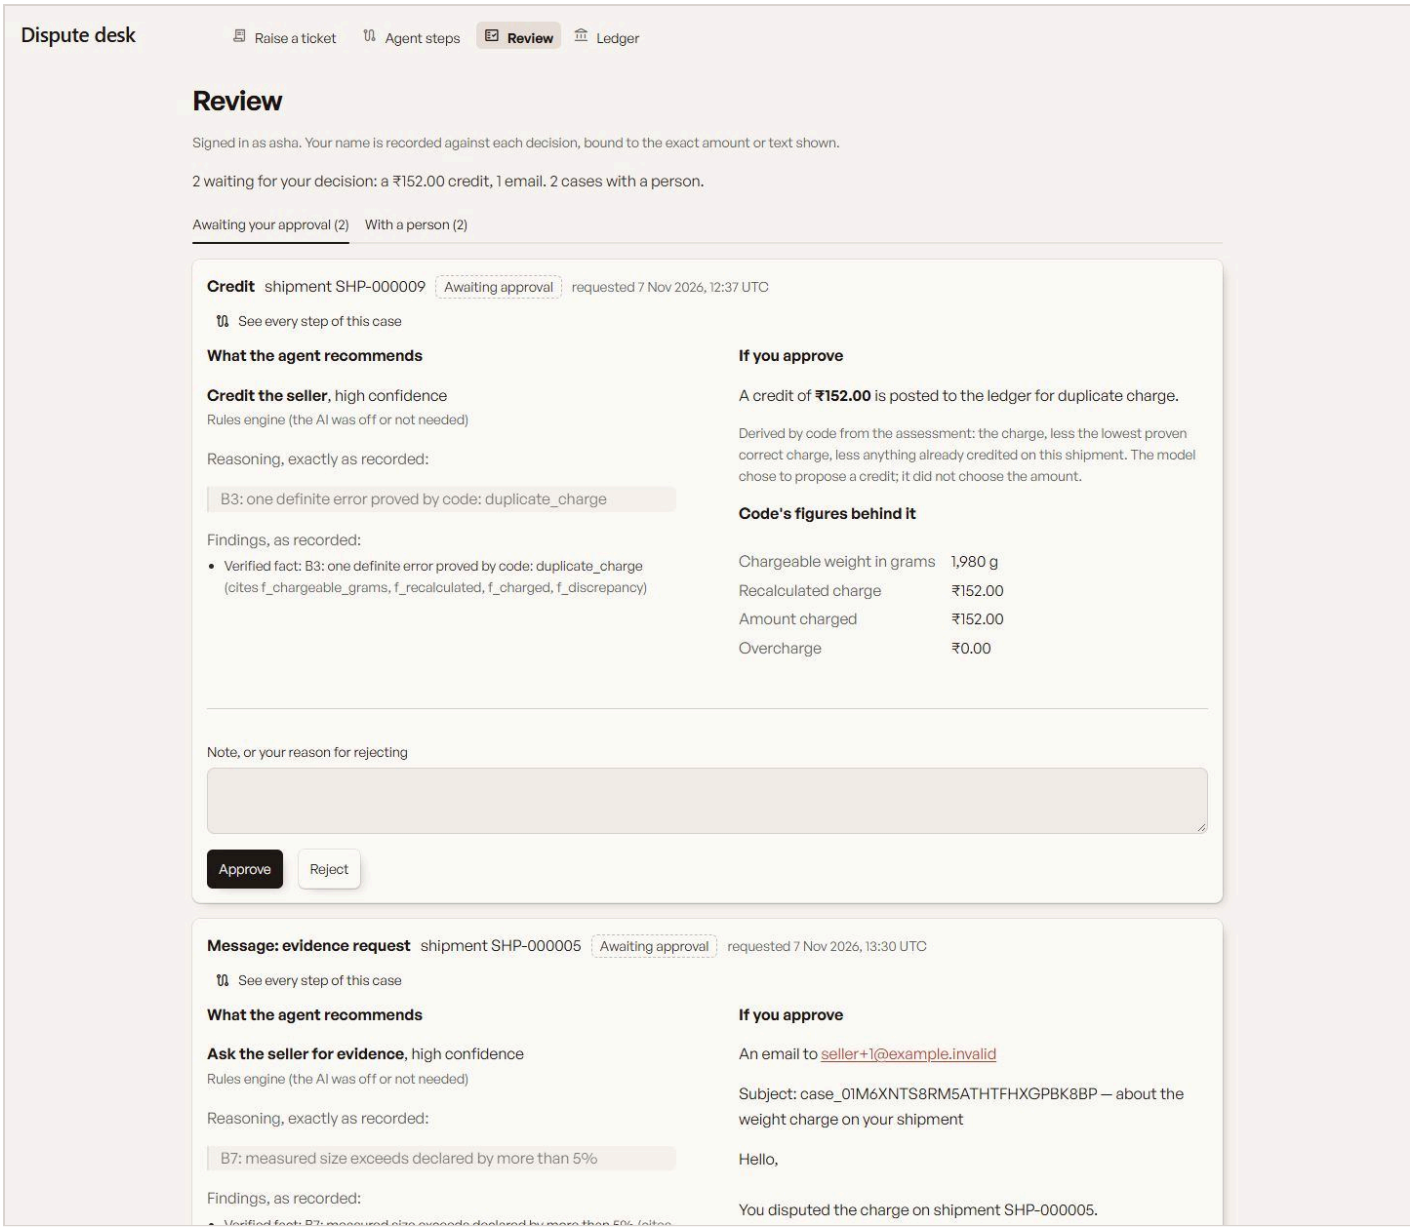

14. Review · desktop 1440 px

Review sign-in, run locally: the review console token and a name. Hosted, the site password stands in for the token and only the name is asked (ADR 0047).

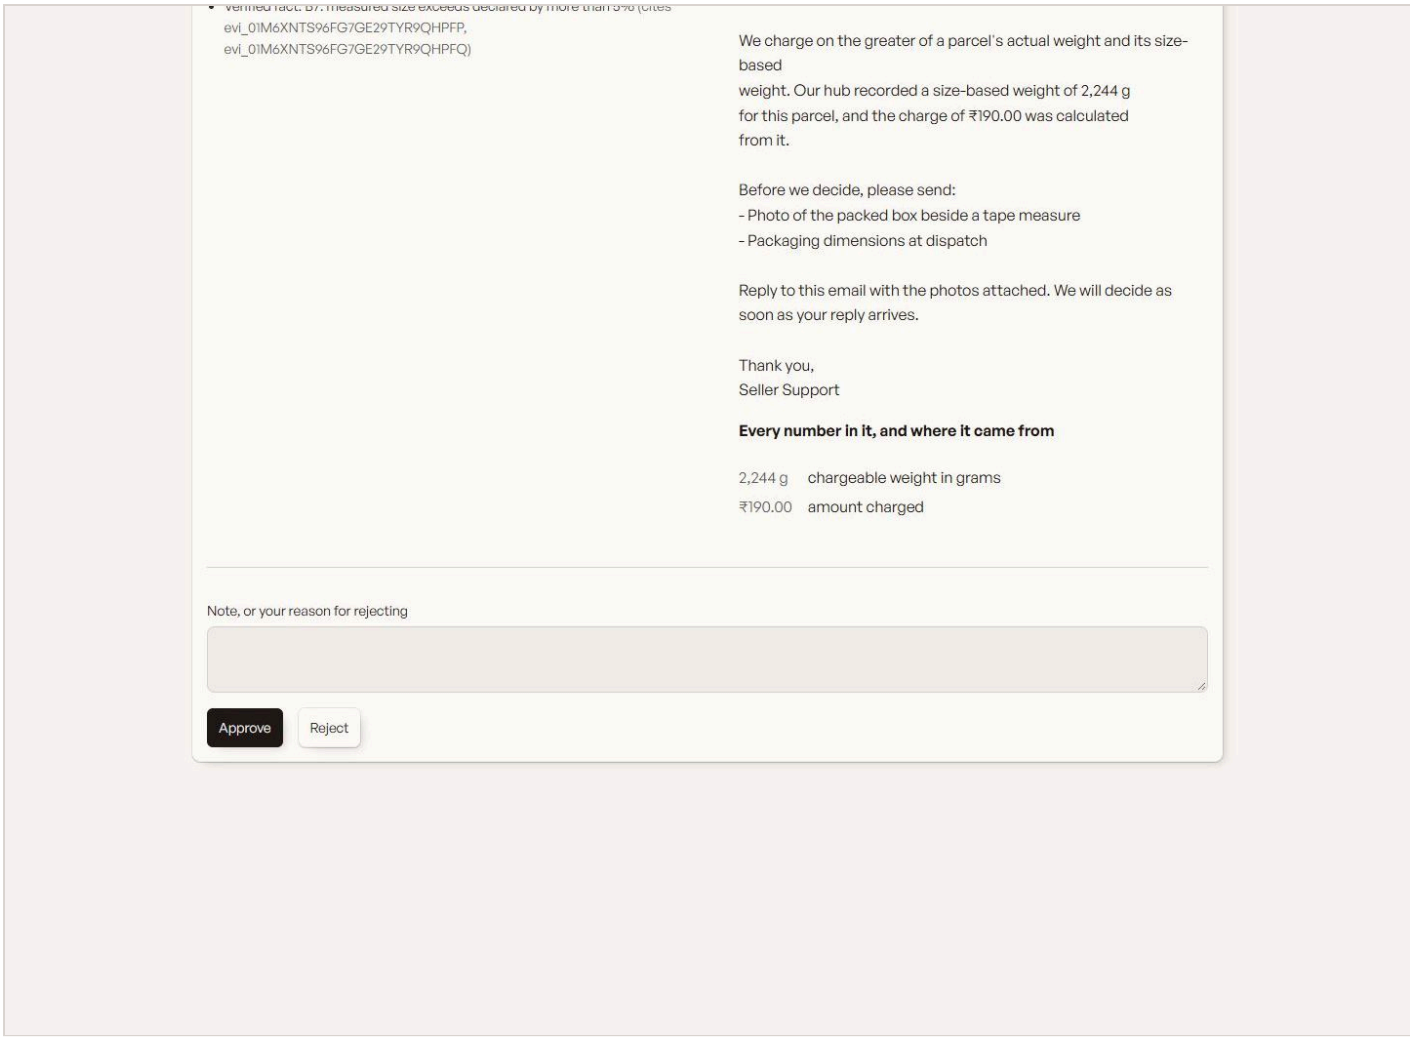

15. Review · desktop 1440 px (part 1 of 2)

Awaiting approval: a count line, then one card per decision. Each card puts what the agent recommends and its reasoning beside exactly what happens on approval, with every number's source. A credit card and an email card.

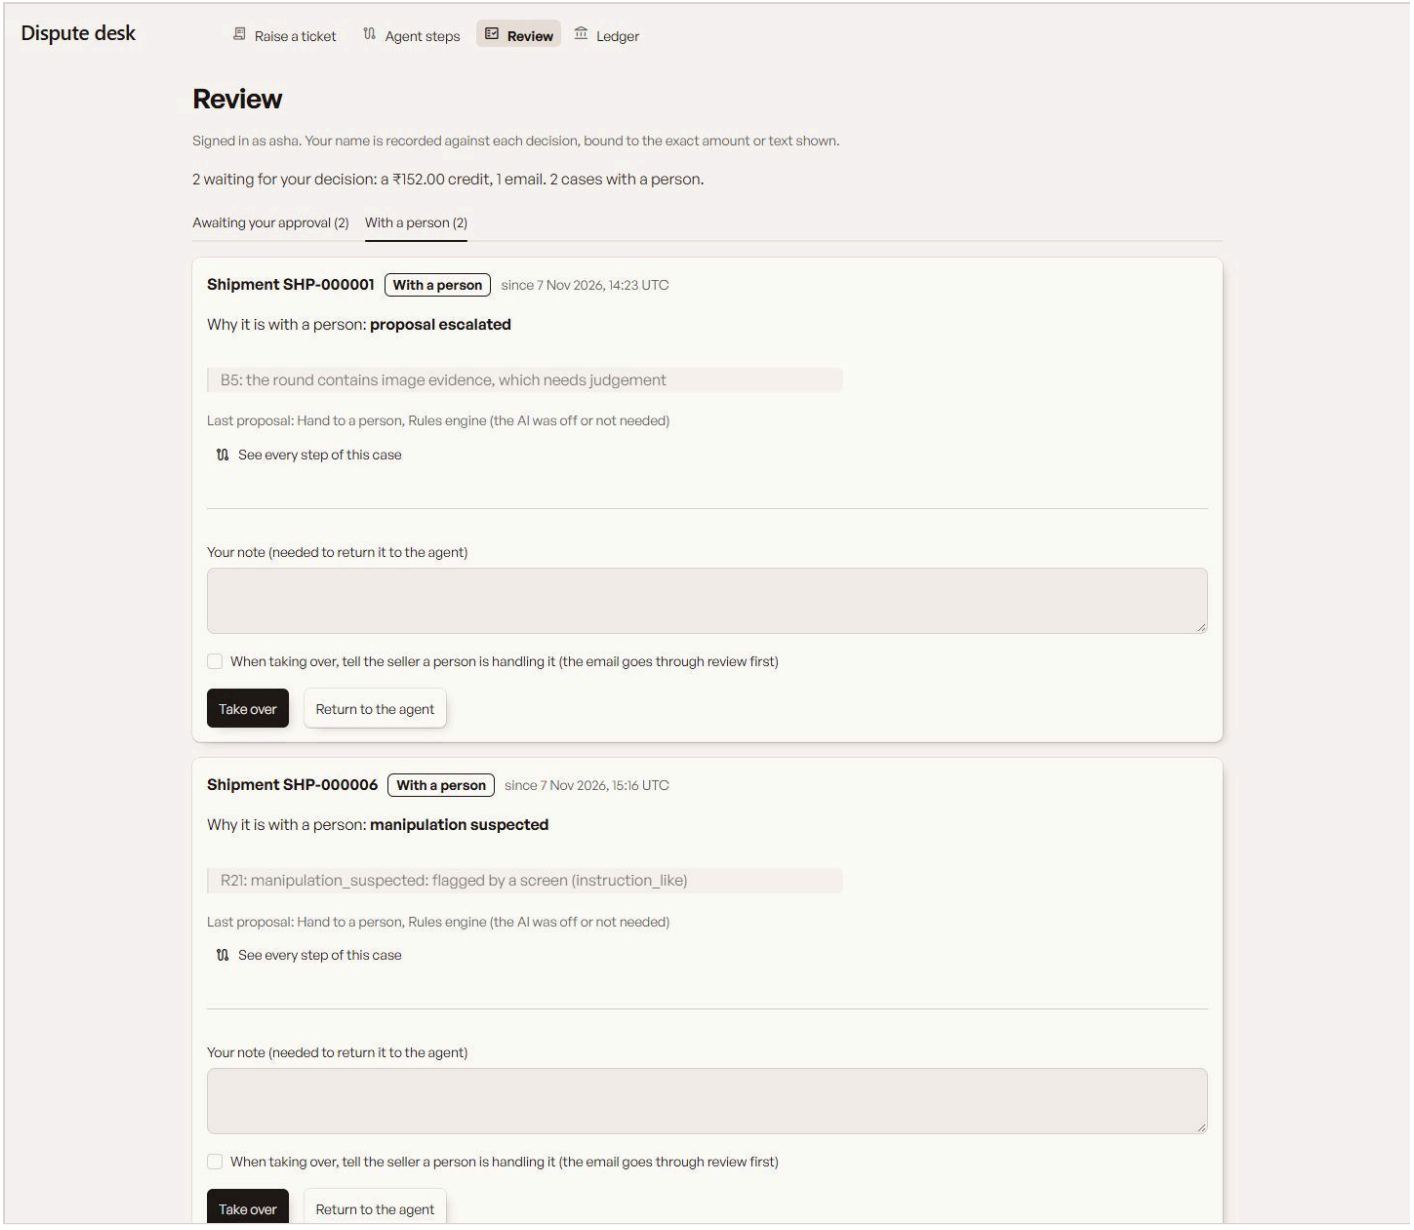

Awaiting approval: a count line, then one card per decision. Each card puts what the agent recommends and its reasoning beside exactly what happens on approval, with every number's source. A credit card and an email card.

16. Review · desktop 1440 px (part 1 of 2)

With a person: why each case is there, the agent's last proposal, a link to every step, and the three decisions (take over, return to the agent, confirm withdrawal when the seller asked).

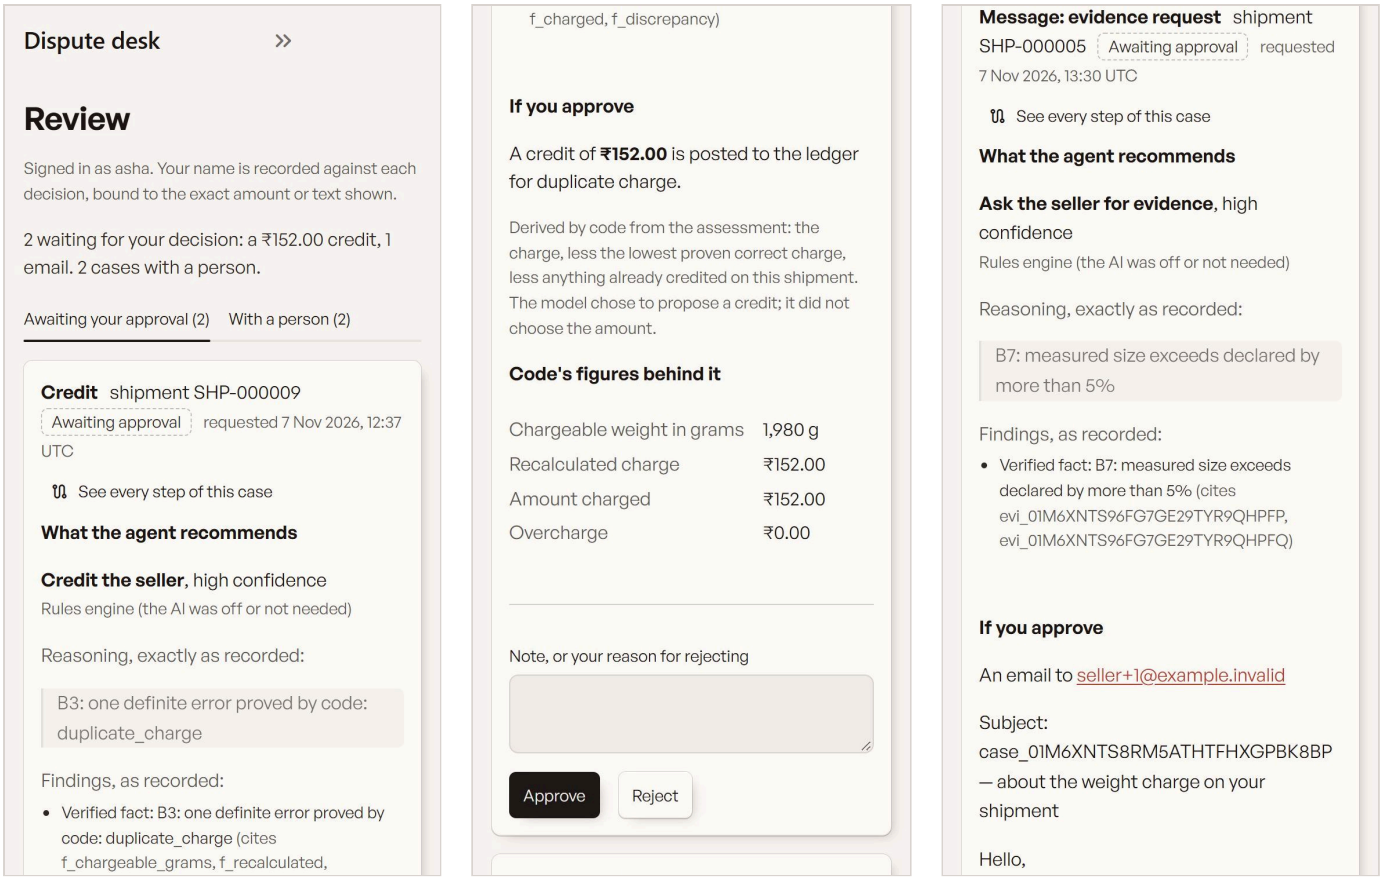

16. Review · desktop 1440 px (part 2 of 2)

With a person: why each case is there, the agent's last proposal, a link to every step, and the three decisions (take over, return to the agent, confirm withdrawal when the seller asked).

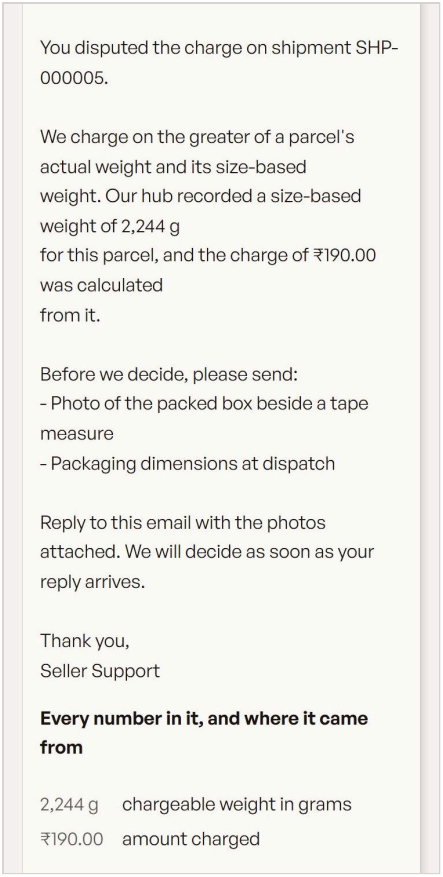

17. Review · phone 375 px (columns 1-3 of 5)

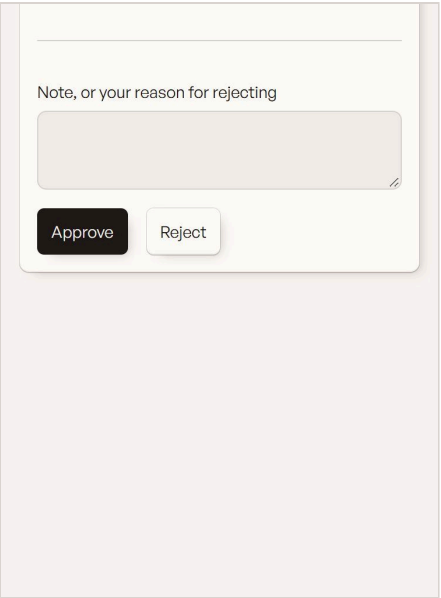

Phone: the two columns of a decision card stack; the decision stays at the foot of the card. Read the columns left to right, top to bottom.

17. Review · phone 375 px (columns 4-5 of 5)

Phone: the two columns of a decision card stack; the decision stays at the foot of the card. Read the columns left to right, top to bottom.

Screen 4 of 4

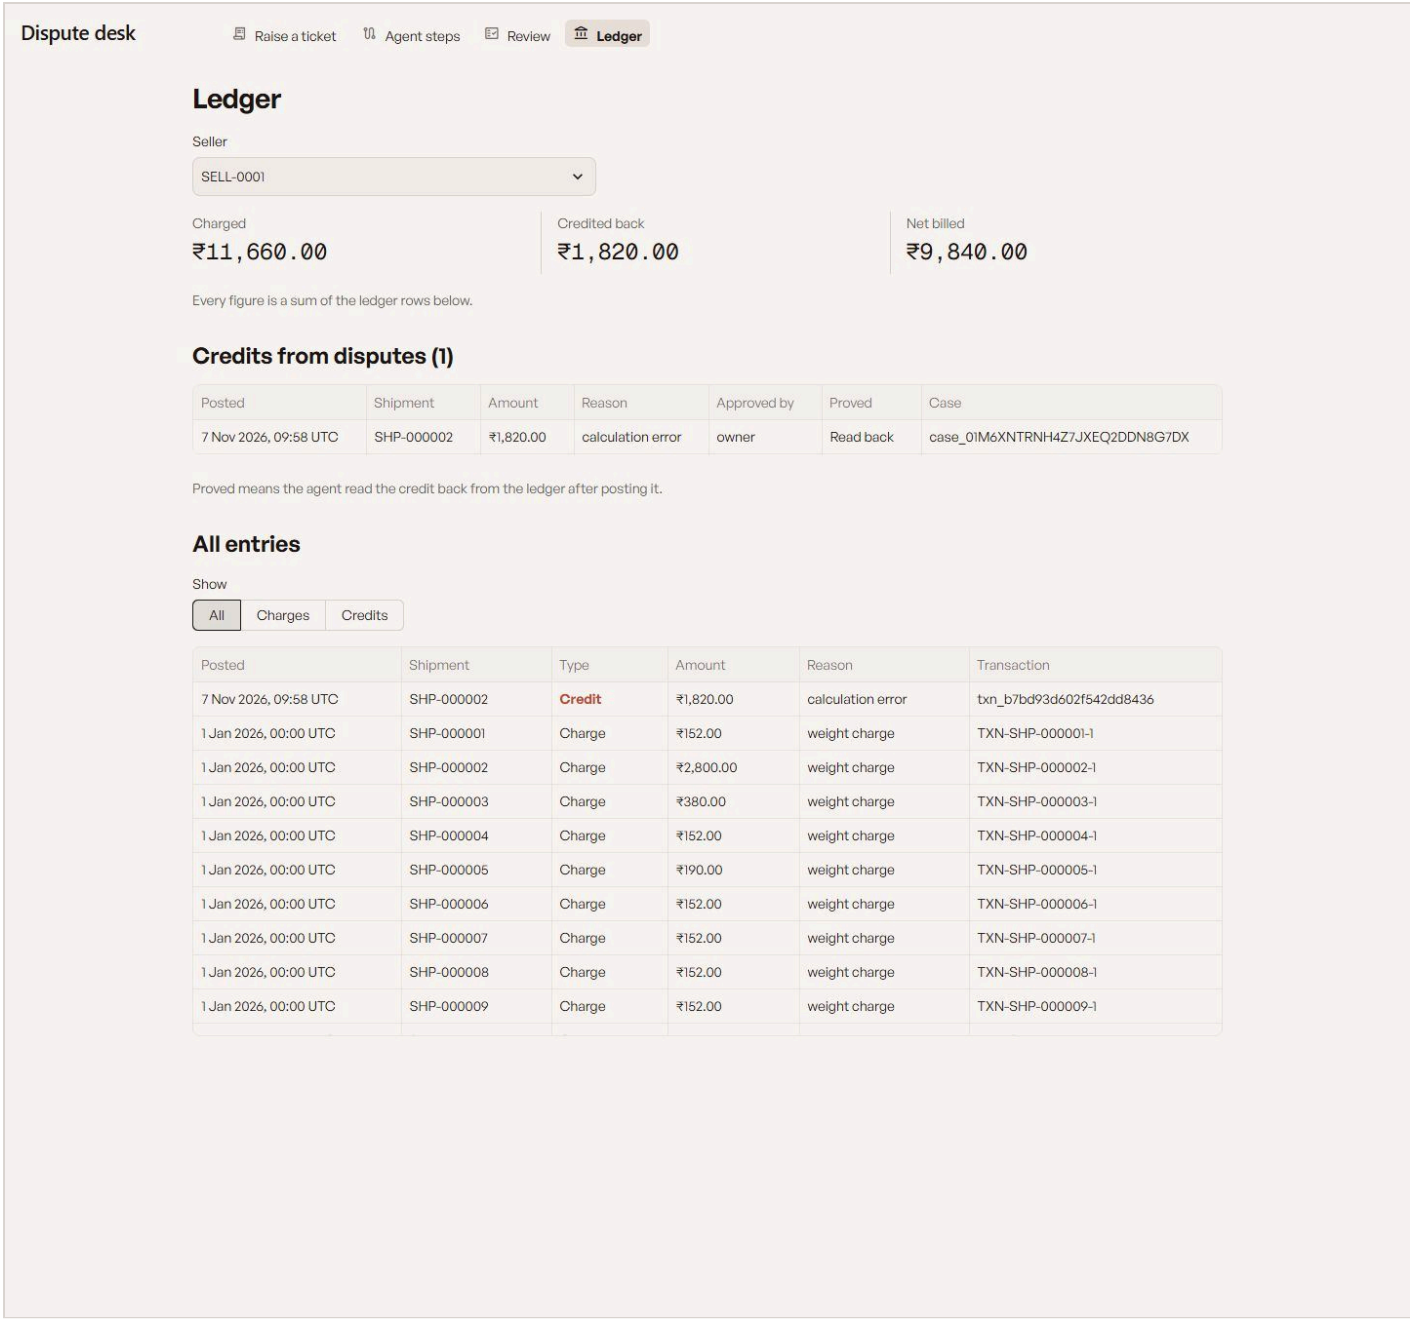

# Ledger

Screen 4 - finance. Charges and credits per seller; every credit traced to its case, approver and read-back.

2 desktop state(s), 1 phone view(s)

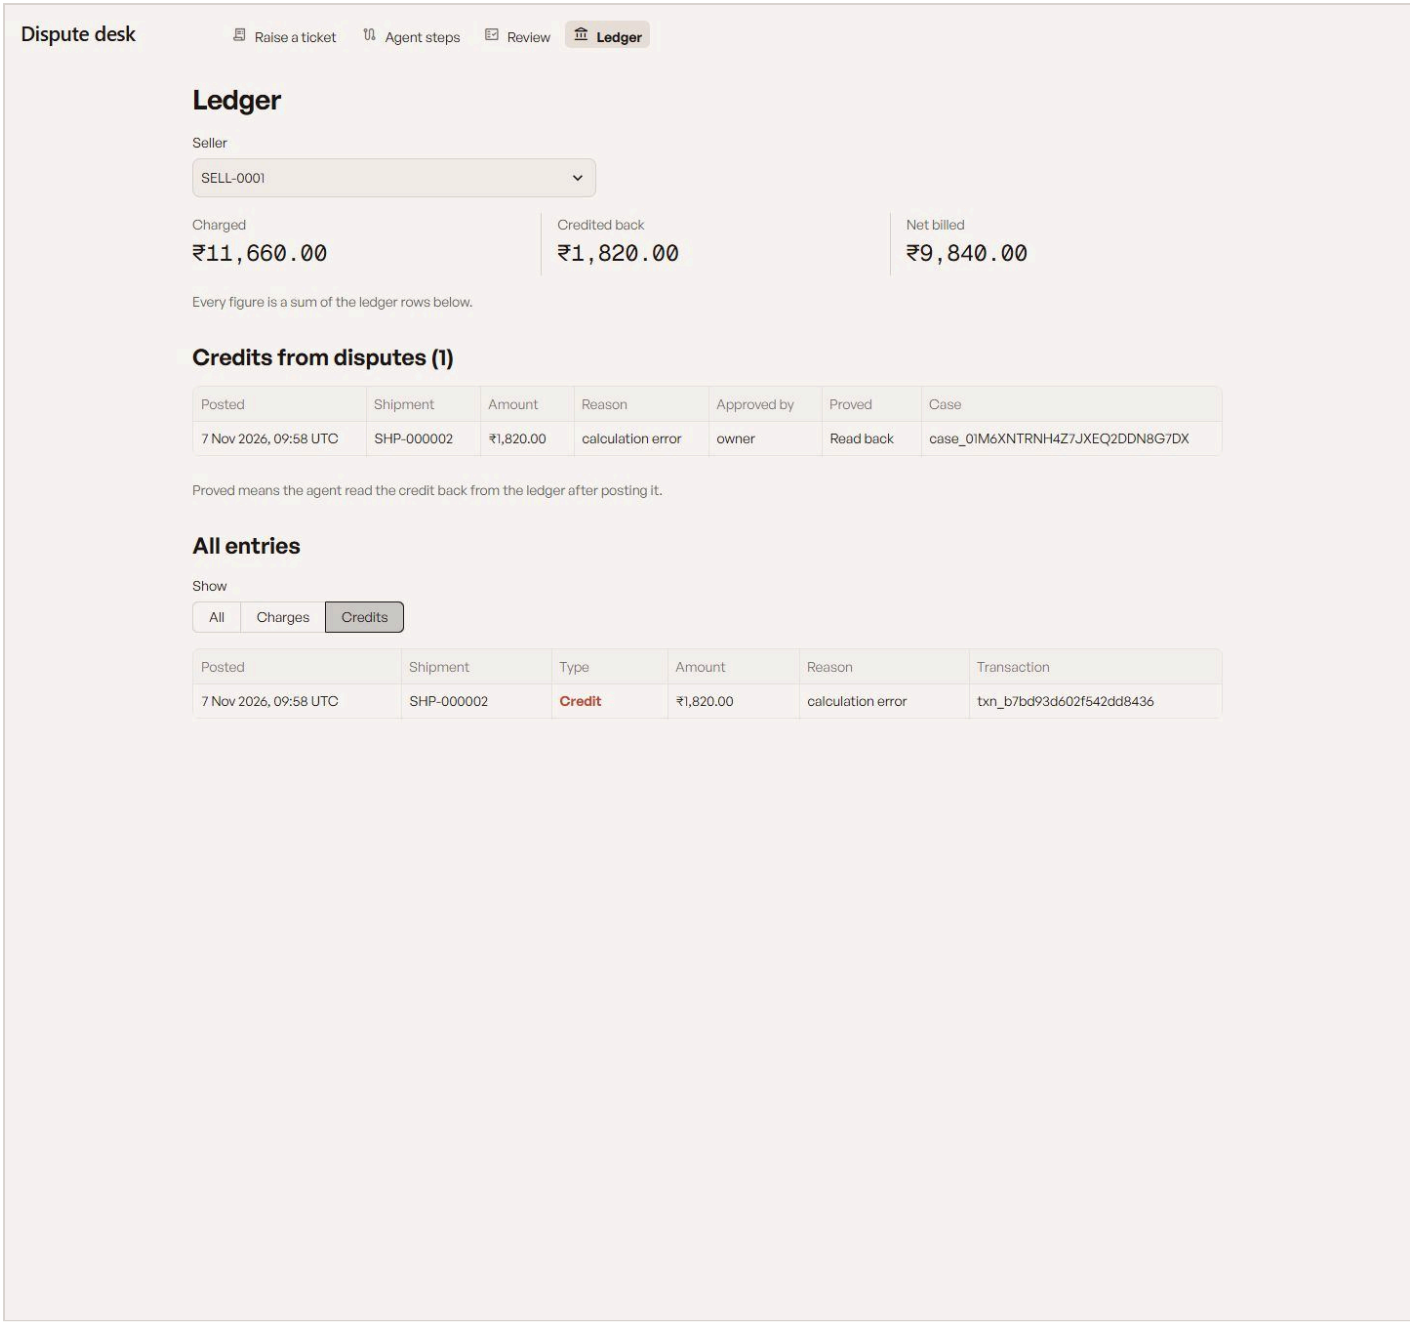

18. Ledger · desktop 1440 px

Finance: totals that are sums of rows, credits from disputes with who approved each and whether it was proved by read-back, then every entry.

19. Ledger · desktop 1440 px

All entries filtered to credits.

20. Ledger · phone 375 px

Phone: the totals stack with a rule between them. Read the columns left to right, top to bottom.
